**Pimples
Cleared Away**
Mucio, Ind.—"Resinol Soap has
worked wonders for me. I had
been bothered for a few years
with pimples on my face and had
tried various soaps and lotions in
an effort to overcome this con-
dition, but without success. Resinol
Soap was recommended to me, so
I tried it and have used it ever
since. It not only restored my
skin to a healthy, normal con-
dition, but it has kept it so."
(Signed) Mrs. J. O. Delley.

Resinol is recommended by doc-
tors everywhere for almost all
types of skin disorders—eczema,
rash, pimples, cloudy complexion.
Spread on a little Resinol
Ointment at night; then wash off
with Resinol Soap and hot water
in the morning. Do this once a day.
Try it yourself. At all druggists.
For free sample of each, write
Resinol, Dept. 69, Baltimore, Md.

SPEED PEAK ATTAINED

Practice Plane
Tops Record

British Ace in Schneider Cup
Winner Reaches 340
Miles an Hour

English Trophy Ship for This
Year's Race Set to Make
Still Faster Time

BY WAVERLY ROOT
(Copyright, 1929, by Chicago Tribune.)
LONDON, Aug. 19. (Exclusive)—
Though the official time was kept
secret, expert observers estimated
that Flying Officer Alcocky attained
a speed of 340 miles an hour in a
practice spin over the Schneider
Trophy course in a Gloster-Napier
four today. Great Britain won the
trophy two years ago with a speed
of 281 miles an hour. The world's
speed record is 318 miles per hour,
made by Maj. Bernard of Italy last
year. The plane is the one used
in the cup race two years ago and
is being utilized in practice by the
British speed pilot.

It is divulged today that the
Golden Racer, Gloster-Napier six,
one of the two types entered in this
year's race by Great Britain, is de-
signed to reach a speed of 400 miles
per hour. H. P. Folland, its de-
signer, complained today that new
methods augmenting speed are be-
ing invented so rapidly that his ma-
chine is far from representing the
last thing in speed.

"If I had more time I would re-
model it on so to get much greater
speed. It has taken me a year to
build it and now when it is too late
I have seen how I might have done
much better. I see no reason why
the Schneider Trophy a few years
hence should not be won with a
speed of 1000 miles per hour. The
problem of a human being to pilot
it, are disappearing. We have
learned that the oxygen tank is not
necessary to the pilot and the serious
effect of gravity has been com-
pensated in an extent previously not
contemplated," he said.

AMERICA'S MERCURY RACER
WILL GO FOR CUP RACE
ANNAPOLIS (Md.) Aug. 19. (P)—
Decision to send the Mercury racer,
Lieut. Alfred A. Williams's tiny, but
powerful plane, abroad this week
to compete in the Schneider Cup
races without any further tests here
was announced at the Naval Acad-
emy today.

Lieutenant-Commander Dewitt C.
Ramsay, under whose management
Williams's tests of the speed plane
were conducted here, made the an-
nouncement, saying that the de-
cision was reached with full co-op-
eration of the Navy and the men
who backed Williams in construc-
tion of the plane.

PILOT ELATED
Commander Ramsay said in yester-
day's test Williams had the
plane off the water a few feet de-
spite a bent propeller and that the
speed it developed in a 400-yard hop
in that manner convinced the flyer

America's Hope For Victory

Lieut. Williams
And his Mercury racer.

that the racer will give the per-
formance he expected of it.

The plane will be shipped to New
York at once, he said, and Williams
and his racer probably will leave
for England on the Majestic on Fri-
day.

Lieut. John R. Pippin, who aided
Lieut. Williams in his tests at An-
napolis today, was selected to go
aboard with the Mercury racer to
assist him in preparing for the races
on September 4 and 7.

The powerful little monoplane is,
in effect, a bullet aimed at the
heart of resistance. Every possible
resistance—producing part is highly
streamlined.

COMPARE PLANES
A comparison of the Mercury
seaplane and the Curtiss racer with
which Lieut. Jimmy Doolittle won
the Schneider trophy for the United
States in 1925, brings out strikingly
the advances in aerodynamics ef-
ficiency. One of the chief differ-
ences is that the Mercury is a
monoplane instead of a biplane,
eliminating two interplane struts.

While two struts connected the
pontons to the Doolittle plane, the
pontons of the Mercury racer are
linked by small streamlined wires.

The pontons of the Mercury show
a marked advance in streamlining.
Whereas the floats of the 1925 win-
ner presented projections and ir-
regularities of surface to air eddies
and set up resistance. The Mer-
cury's pontons are smooth and
symmetrical. Fittings, clevises and
nuts which were presented to the
wind on the Doolittle plane are
streamlined on the Mercury. Out-
side cowling fasteners also have
been eliminated on the Williams
machine and every screw is counter-
sunk.

These might seem of small matter
to the layman, but the importance
of streamlining may be understood
when it is realized that the resis-
tance parts offer to the wind in-
creases in proportion to the square
of the speed. This consumes power
rapidly.

HIGHLY POLISHED
Skin friction, the dragging of air
over the surface of a plane, has
been cut to a minimum by reduction
of fuselage area and by highly
polished surfaces. The entire wing
surface is copper covered, being
utilized as a radiator to cool the
engine. It is the first time on an
American plane that the entire wing
surface has been so employed.

While the trial flights have been
delayed by the weather, mechanics
have been going over the racer.
Several changes have been made, the
most important being adjustment
of controls to counteract the torque
of the powerful engine, which
tended to rotate the plane to the
left.

Just how fast the Packard twenty-
four-cylinder engine will pull it
through the air is not definitely
known. Friends of Williams have
estimated its speed between 340
and 360 miles an hour. He has in-
dicated that it must exceed the pre-
sent world's record of 318 miles an
hour if it is to enter the race.

**Snook New Trial
Plea Continued**
COLUMBUS (O.) Aug. 19. (P)—
Judge Scarlett continued the
hearing on a motion for a new
trial for Dr. James H. Snook un-
til 9:30 a.m. tomorrow after a
brief hearing today on a motion
for a continuance filed by defense
attorneys in which they as-
serted they had been given insufficient
time to prepare for the hearing.

**Chicago Man's
Home Bombed**
CHICAGO, Aug. 19. (P)—A
powerful bomb was exploded early
today under the front porch of
the summer home of Lawrence T.
King, County Democratic leader
and Sanitary District trustee.
The bomb wrecked the front of
the house and threw King and his
five children from their beds. None
was injured.

BRITISH TROOPS TO LEAVE RHINE

Withdrawal Announced at
Reparations Parley.

First Contingent Will Quit
River September 1

Young Plan Action Awaits
Experts' Report

THE HAGUE, Aug. 19. (P)—With
the only positive development of
the day, an announcement that
British troops will begin to leave
the Rhineland on September 1,
next, the conference discussing the
Young plan for German reparations
is for the moment in the
hands of experts of the creditor
powers.

Two things are holding up the
financial and political committees
of the statesmen and must be de-
cided before further progress is
possible. The jurists must decide
whether the committee for control
of armaments on the left bank of
the Rhine, which the French asked
for as a condition for evacuation,
is legally justified by the treaties
before dates can be fixed for com-
plete liberation of the occupied
German territory.

The financial experts must de-
cide what is the money value of
the offer made by the four other
leading creditor powers to Great
Britain to satisfy her demand for
a greater share in reparations be-
fore further effort can be made to
come to an agreement on adoption
of the Young plan.

Both of these committees of ex-
perts worked steadily today with-
out any definite indication of when
they will be finished. The financial
experts believe they will have some-
thing to report tomorrow.

MURDER SHOT CONFESSED
PRESBOTT (Ariz.) Aug. 19.
(P)—Stephen Roberts of Detroit has
confessed firing the shot which
killed George Ingram of Bishop,
Cal., the 9th inst according to a
statement made by Sheriff Graham
of Mohave county, who yester-
day brought Roberts to the Yavapai
County Jail in this city for safe
keeping pending his trial on a mur-
der charge.

JAEGGER

EXPRESSES APPRECIATION

YESTERDAY the people of Los Angeles gave the new
Jaeger showrooms a welcome beyond all expecta-
tions. In they came—men, women and children—to
inspect, to appraise and, in the majority of cases, to buy.
The warmth of the welcome only serves to sub-
stantiate our belief that Los Angeles men and women
are satisfied only with the best, the finest, in quality
and good taste.
You who came yesterday found unsurpassed woolen
goods in an atmosphere of courtesy and refinement.
You who come tomorrow, or on any future to-
morrow, will find the same quality of product—the
same courteous service.

The store will remain open until 6 P.M. during the first week.

NEWS FOR CAPTURED MEN

TIMBER FACING NEW FIRE PERIL

Great Fresno County Area Swept by Flames
Rangers Battle to Protect Large-Tree Preserve

Latest Blaze Believed Due to Careless Smoker

FRESNO, Aug. 19. (Exclusive)—The heavily timbered area of the Sierra National Forest, a mountain fire, which started yesterday, today swept through 1300 acres of scrub oak, jack pine and brush in the Toll House area of Fresno county, being swept by a crew of 150 men directed by Fire Chief A. K. Wofford of the Forest Service.

Approximately 5000 acres of the land that has been burned over is in the national forest. The fire started along the road between Toll House and the national forest, presumably from a carelessly tossed cigarette and within a short time had swept up Burroughs Mountain, and steadily advanced into the national forest.

The menace to the big timber in the national forest became so great this afternoon that a hurry call was sent to Modesto and Fresno county communities for more men, the Forest Service headquarters at North Fork reported.

The area in which the fire is burning is one that is heavily populated for this type of mountain land, numerous summer homes and ranches being scattered throughout the Sierras.

Another dangerous fire was halted quickly in the forest area late yesterday after burning over a small area, on the Wawona road between Fish Camp and the Sugar Pine Lumber Company's mill.

Additional men were drafted today to fight a fire in the Rocky Mountain region of Warthen Canyon, on the west side of Fresno county. Twenty miles west of Coalinga, a large area of range land is burning and other grazing land threatened.

A fire which started yesterday in range land and scrub timber between Squaw Valley and Orange Cove was controlled yesterday after burning about 500 acres of excellent feed.

SIX MORE FIRES BREAK OUT IN STATE
SACRAMENTO, Aug. 19. (P)—Six field and forest fires are reported to the State forestry division as burning tonight.

Two of them are in the Tahoe National Forest district of Yuba county in the vicinity of Camptonville and burning through small timber, brush and grass.

Three fires are burning in Butte county. One broke out near Paradise this afternoon, officials here were told, another which has been brought under control, was fanned to life by winds and flared through fire lines near Modesto and about the same time the third fire started at the edge of near-by timber land.

More men are reported sent into the Willow Springs district of Colusa county to fight a grass-and-herb fire that started yesterday and has swept over a large, unestimated area tonight.

CALAVERAS COUNTY FIRE STILL RAGES
STOCKTON, Aug. 19. (P)—Brush fire which broke out last week east of Mokelumne Hill, Calaveras county, still was raging this morning, sweeping eastward toward the big timber country. Already it is estimated fully seventy square miles have been burned over. Some ranch buildings and much valuable pasturage have been destroyed.

Moose to Build City in Wales

DETROIT, Aug. 19. (P)—Representatives of Moose lodges from all parts of the United States and Great Britain are here today for the first-of-its-kind convention of the Supreme Lodge of the world.

Plans to construct a child city in Wales, near Cardiff, similar to one maintained by the order at Mooseheart, Ill., were announced last night at a banquet given in honor of the British delegates.

Proceeds of \$100,000 were received toward the establishment of a boy's village at Mooseheart.

Drowned Boy Finally Found

SAN FRANCISCO, Aug. 19. (Exclusive)—Held in a whirlpool's grip for more than seven weeks, the body of Forest Case, 12 years of age, son of Mr. and Mrs. Alfred P. Case, Burlingame, was sighted today at the foot of Vernal Falls, Yosemite, and recovered by rangers with struggling hooks.

Young Case was carried over the 217-foot falls on June 29, last, when he slipped while wading in the Merced River.

Death Driver Enters Prison

SAN FRANCISCO, Aug. 19. (Exclusive)—Cedric Flanagan, an automobile killed two women, June 24, last, today was taken to San Quentin prison to begin his term of one to ten years for manslaughter.

His victims were Mrs. Henry J. Crocker and Mrs. Lydia Paige Mortimer. Flanagan was convicted of the death of Mrs. Crocker. A charge of driving while intoxicated also had been placed against him but he was found not guilty in that charge by the jury.

Yacht Carrying King Has Crash

COPENHAGEN, Aug. 19. (P)—The Danish royal yacht Dannebrog with King Christian and Queen Louise aboard was in collision with the Japanese steamer Matsumoto Maru today.

The yacht was damaged slightly on the bowsprit which easily was repaired. Their Majesties remained on board and will sail tonight on a cruise.

PIANO TUNERS SLUR WOMEN

Convention Delegate Says They Can't Qualify As Listeners

CHICAGO, Aug. 18. (Exclusive)—Because women are not good listeners and are unable to concentrate, nature has unfitted them as piano tuners, one profession that appears hopelessly barred to the fair sex. This is the opinion of members of the National Piano Tuners' association in twentieth annual session here.

"Intense concentration is mandatory in tuning pianos," said Mel C. Roe, of Chicago, "and women as a rule do not make good. They are not adapted to the profession. They can concentrate, of course, but do not like work that requires such concentration every working day."

Other members, declining to be quoted, agreed that women are poor listeners. They want to make the noise and do the entertaining themselves.

PLAN OF OFFER
The President has asked me to go to Salt Lake City to meet the

HOOVER MOVES TO OFFER LANDS

Western State Governors to Hear Proposal

Spokesman to Outline Plan for Return of Domain

Reclamation Work's Future Also in Balance

BOISE (Idaho) Aug. 18. (P)—Joseph M. Dixon, assistant Secretary of the Interior, representing President Hoover, will present to the governors of the eleven western States in conference in Salt Lake City, the 26th and 27th inst., a "concrete proposition looking to the taking over by the western States of the remaining unappropriated public lands." It was announced here today.

The announcement was contained in a letter received today by Gov. Buldridge, chairman of the conference of governors, from Mr. Dixon.

Dixon, who is a former Governor and Senator from Montana, declared also he will present to you a more flexible plan for the future work of the Bureau of Reclamation.

"After a residence of nearly forty years in the West and based on my own experience as Governor, Senator and Congressman from Montana, I believe I know something of the relations between the two problems involved and the future development of the western States."

In order that the President's definite views upon these matters may be placed before your conference for the fullest discussion, might I suggest, if agreeable to you, that I be given an early place on the program, in order that the discussion

CHICAGOAN'S HIP FLASK YIELDS UP POTENT BREW

Riding hither and thither, Martin casually bethought himself of the bottle. What might it contain? Of a sudden there came a paralyzing thought. Perspiration beaded his brow. He drove cautiously to a police station where the sergeant took a quick glance and doused the bottle in water.

"I congratulate you," the sergeant told Martin, "on being with us still. At a rough estimate there is in that bottle enough nitroglycerine to have rendered you, I should say, virtually extinct."

public land States governors' conference the 26th and 27th inst., the letter said, "I hope to be able to present the western governors a concrete proposition looking to the taking over by the western States of the remaining unappropriated public lands, and also present to you a more flexible plan for the future work of the Bureau of Reclamation."

"I had a talk with Gov. Moore (former Governor of Idaho, now United States Land Commissioner) at luncheon today and told him that I was going to write you regarding it."

The information in the letter is in line with a recent announcement of the Secretary of the Interior Wilbur, in a speech in Boise, that the time had come for consideration by the western States of taking over of the surface rights to the public domain.

His announcement was followed by the call for the governors' conference to consider this, as well as other matters affecting the western States.

RICHARDSON HAT MAY GO IN RING

Former California Governor Returns from Europe

He Says in New York That He's Urged to Run

Final Decision Declared to Rest With Friends

NEW YORK, Aug. 19. (P)—Former Gov. Friend W. Richardson of California arrived here today aboard the Cunard liner Lancastria from a two months' trip spent in Europe.

Richardson declared he will confer with friends in California before deciding whether he will run for Governor in 1930.

The ex-Governor said that a great many of his friends are urging him to run. He indicated his decision will rest with them. His secretary had a batch of letters at the pier waiting for him. Among them, he said, clippings and editorials from California papers requested his candidacy.

His decision will be reached soon after his arrival home, he stated. He leaves here Wednesday via Chicago, where he will stop a few days, accompanied by Mrs. Richardson and his sons, Paul and John.

The SUNFREZE "QUALITY DEALER" deserves your patronage

...he caters to those who insist on the best....

RIGHT in your neighborhood, there is a store worthy of your patronage!

It is operated by a SUNFREZE "Quality Dealer"—a man who has the best interests of his patrons at heart. You can prove this by noticing his courteous service, his approved business methods, and most important, by the high standard of the merchandise he carries.

Take his principal commodity—ice cream—for instance. The "Quality Dealer" serves SUNFREZE. He knows its richness, smoothness and flavor are unexcelled. For SUNFREZE Protected Ice Cream is prepared from a scientifically-balanced formula, containing such an abundance of essential food elements that it is really a food—vital as sunshine. Naturally, this scientific care and preparation makes it cost more to manufacture, but it makes SUNFREZE a better ice cream. That's why the "Quality Dealer" willingly pays more for it!

As he is careful in the selection of his ice cream—so he is equally particular about all his other merchandise. He insures you an extra margin of quality—and thereby merits your steady patronage!

Wherever you are—there is a SUNFREZE "Quality Dealer" near at hand. You can identify his store by the red and gold emblem. Remember—this is your "seal of quality" not only for ice cream but for all the other commodities that he sells!

Why not shop at your SUNFREZE "Quality Dealer's" today!

PLATT POLICY FOR CUBA HIT

Institute of Politics Told of
Amendment Flaws

Curb on Island Depicted as
Source of Discord

California Professor Airs
Annexation Views

WILLIAMSTOWN (Mass.) Aug. 19. (AP)—The Platt amendment, promising independence to Cuba when, in the United States' opinion, its economic and political stability warrants, was a mistake, both from the Cuban and American points of view, Prof. Herbert I. Priestley of the University of California said today in an address before members of the Institute of Politics.

Declaring that the fate of Cuba would have been "immeasurably better" had the United States annexed it outright, Prof. Priestley said.

"The sovereignty maintained by the United States under the Platt amendment is a greater encouragement to misunderstanding than the territorial or political annexation would create. Political malcontents and literary denunciations of the United States find in their hands a mythical apple of discord at which they nibble incessantly."

"American business interests have found themselves in Cuba on the whole well protected, yet it is unmistakably true that the assumption of responsibility by the United States for economic purposes and the control of internal affairs would yield to all classes of Cubans a greater measure of prosperity."

"As the situation now stands the only feasible path to pursue is to continue under the Platt amendment until such time as the Cubans by their evolution of political integrity can succeed in rendering the clause obsolete."

MINERALS DISCUSSED
Dr. C. W. Leith, chairman of the department of geology and geography of the University of Wisconsin, discussing Canadian-American mineral resources, said that United States capitalists playing a large part in mineral exploitations in Canada.

Mineral production of the Dominion, he pointed out, is only 4 per cent of that of the United States, due to a lack of iron ore and oil and to disadvantageous location of the deposits in relation to centers of consumption.

"Canadian and provincial governments now are making a definite effort to obtain mineral independence by conservation and political means," he said.

JOINT CONTROL SEEN
"When Canada is considered as a part of the British Empire the problem takes on wider significance, in view of the fact that Great Britain and the United States so thoroughly dominate the world's mineral situation," he stated. "The net result is likely to be a measure of joint political control of minerals between the United States and the British Empire."

Prof. Jacob Viner of the University of Chicago, discussing the French attitude toward inter-allied debts and reparations, said that France's willingness to enter into negotiations leading to the Young plan had been due to her anxiety to obtain commercialization and mobilization of reparations.

Blast Wrecks New Building in Kansas City

KANSAS CITY, Aug. 19. (AP)—A terrific explosion which shrapnel was of incendiary origin, wrecked a new one-story brick garage building at Fifteenth, street and Forest avenue early today. The blast shattered windows a block distant and was heard in many parts of the city. No one was injured.

William Klugman, owner of the building, and his son, Elmer, were questioned by police, and released.

Two weeks ago three firemen were killed in a drug store fire and explosion at Sixty-ninth street and Prospect avenue. An investigation of an alleged arson plot has resulted in the arrest of four men, two of whom are under indictment for first-degree murder. The others are held without bond on state murder charges.

D. M. Carey, accused of being the leader in the plot, was indicted last Friday shortly before he was indicted.

FINANCE GAIN TOLD

Whitmore Reports \$100,000,000 Rise
in Building and Loan Assets

SACRAMENTO, Aug. 19. (AP)—Building and loan assets in California total more than \$100,000,000, a \$100,000,000 increase in a year, Charles Whitmore, deputy state auditor, declared today during a visit to the Governor's office. Whitmore formerly was private secretary to the Governor.

There are 346 building and loan companies in the State, Whitmore said, twenty-four more than operated last year.

Whitmore said he planned to pass two-thirds of his time in Los Angeles and the rest of the time in San Francisco offices of his department. He plans to visit Sacramento Monday.

FIGHT TO STRENGTHEN LAW AGAINST RUM OUTLINED

Former Prosecutor Tells How She Invoked Old Rule on Seals to Hold British Ship

(Continued from First Page)

It was proceeding from the Canadian border; and, third, that its springs were very heavily weighted down with an unusual load. The public is very liable to break into criticism without waiting to know the facts when prohibition agents stop cars. It is well to remember that the Supreme Court of the United States has spoken affirmatively in upholding their right to do so, under some circumstances.

Another recent victory in interpreting and strengthening the prohibition law is the case on United States vs. Maroon, 276 U. S. 182. Bootleggers keep their books like business men. They record the amount of liquor handled and the payments of graft to the police officers and others on whose protection they depend. Because of the constitutional guarantee to protect a defendant from having to testify against himself and to protect his books and papers from seizure without a search warrant, most courts at first refused to allow bootleggers and other "law-breakers" books which are kept to record their illegal business to be used against them. Government agents in the Maroon case went into a blind pig in San Francisco. They arrested the proprietors and seized the books. There was much difference of opinion between government lawyers as to whether such evidence could be used. With deep conviction I briefed and argued the view that the Constitution never intended to throw a mantle of protection around records of crime found incident to the arrest of a law-breaker. The Supreme Court upheld this view.

offensive against liquor violators. They recognize it, too. Recently I listened to testimony in McNeil Island penitentiary of a bootlegger who described how after the Maroon case, the ring of which he was a member, constructed a room under their garage. It opened by a trap door in the garage floor which responded to an electric switch. In this vault all books and papers were kept and all records of graft payments and accountings between the partners in crime. He said:

"We weren't going to argue with the Supreme Court after that Maroon case and run the risk of our books revealing all the inner workings of our business. I am here taking my job, but there are a lot of our crowd still out because you didn't get our books when you arrested me."

I have always felt that the worst prohibition offender is the agent or official who shuts his eyes to some "favored" violator's acts. It used to be generally believed, however, that there was no way to punish such an agent other than by reprimand or firing him. This gave him, merely because he wore a badge, a kind of sanctimonious immunity from the law and the opinion of the court to argue a view of the law with my superior officer's brief on file presenting the other side. The opinion, however, left the matter with me for although two justices dissented, the Supreme Court's majority opinion adopted my interpretation of the law and the opinion was written by Justice Butler, Atty.-Gen. Mitchell's former law partner and close friend. He said (page 872):

"Diligence and good faith on the part of enforcement officers are essential. The infliction of punishment for their intentional violation of the law is a means to hold them to the performance of their duties."

This opinion has had a noticeable wholesome and cleansing effect on agents and United States attorneys alike.

FOREIGN NATIONS OBJECT

Not only has it been necessary to strengthen the law at home by obtaining a final interpretation by higher courts of questionable actions of it, but it has been essential to deal with other knotty problems involving international law to keep the country from being flooded with liquor from foreign shores.

The raiding of a bootleg establishment in Chicago without proper search warrant does not produce very serious consequences; but the seizure of a British ship, even though actually laden with intoxicating liquor intended for thirty American throats, may produce very serious consequences if the seizure has not been in accordance with international law. One consequence may be the payment of heavy damages by the United States government; another and even more serious consequence is the building up of bad feeling between nations.

The extent of the rum-running business between foreign shores and the United States may be gauged by the fact that within two years after we had made a treaty with England sending the distance within which we might make a capture of city-sized British rum-running vessels were asked. There were, of course, many other English rum ships, as well as ships of other nations loaded with liquor for America, that either were not detected, or were not captured.

GRACE AND RUBY

In 1921 the hovering operations of foreign vessels, mostly flying the British flag, amounted to a national scandal. As a practical matter, most of "rum row" hovered from twelve to twenty miles off shore, but sent their cargoes in close to land by means of small dories. It was like catching mosquitoes to apprehend these dories. If the parent ship were seized, outside of the three-mile limit into which they seldom ventured, England and other foreign countries under whose flags they were registered would protest and usually the State Department would turn the ship loose.

One day the assistant United States Attorney at Boston reported to me a set of facts that I felt sure would admit of a vigorous policy on the part of the United States government and perhaps make some new law on the subject. The Grace and Ruby was hovering about ten miles off Gloucester, Mass. When she came out from the shore in a motor boat, the Wilkin II. A part of the Grace and Ruby's crew helped to load liquor into the Wilkin II, and then climbed into a dory which belonged to the parent schooner, tied it to the Wilkin II and went ashore. Not only was the Wilkin II seized, but also the parent ship. Great Britain made protest.

USE OLD RULING

I became so interested in seeing the law crystallized by carrying the case to court, that I went over to the State Department and literally took off my hat and coat and rolled up my sleeves to argue with solicitors of that department and representatives of the British government. I got the letter to say the United States risks the chances of turning one of Great Britain's own decisions against her. That was one where the British schooner Arand had been hovering off seal banks, but sent her crew and small boats within a foreign government's territorial waters to kill seals. The British government had agreed that that constituted an offense by the parent ship. In other words, the parent ship. In other words, the dory entry into foreign territorial waters by means of her own small boats, crew and tackle. That was the argument we put up in the Grace and Ruby case. The court sustained it, and the United States government held this rum ship. This theory of constructive entry seriously hampered "rum row."

On her next article Mrs. Williams will record some of the legal adventures affecting malt and yeast, and explain her position in regard to the famous Jones law.

TEXAN DIES ON TOUR

HOLBROOK (Ariz.) Aug. 19. (P)—Robert Ingle, 86 years of age of Grand View, Tex., died suddenly Saturday evening at Painted Desert Inn, east of here. His body was sent to his Texas home today. Ingle was en route with his wife to the west coast by automobile.

COURT MUST SAY IF DRY'S WET

I'm Dry, Avers Dry, and Any Who Say Not Are Moist; Taken for Dry

CHICAGO, Aug. 19. (P)—Whether dry is wet is a matter for court decision.

Some one phoned the DuSapines street police that "this fellow dry is all wet," and detectives went over to Albert Dry's place. There were indications that it was a beer flat.

"I'm a dry," said Dry, "and this is a dry place. Anyone who says differently is all wet."

"Dry up," said the detective, "and come with us for a dry."

ing agents just as much as bootleggers. Atty.-Gen. Mitchell (then Solicitor-General) turned down my first brief and wrote one himself on the other side of the question. When the case came down for argument again, I persisted in my view and Atty.-Gen. Mitchell, like the fair-minded lawyer that he is, said: "Go ahead. File the brief according to your own view, but I can't sign it with you." We had much friendly rivalry in the department over the law that I was before the court to argue a view of the law with my superior officer's brief on file presenting the other side. The opinion, however, left the matter with me for although two justices dissented, the Supreme Court's majority opinion adopted my interpretation of the law and the opinion was written by Justice Butler, Atty.-Gen. Mitchell's former law partner and close friend. He said (page 872):

"Diligence and good faith on the part of enforcement officers are essential. The infliction of punishment for their intentional violation of the law is a means to hold them to the performance of their duties."

This opinion has had a noticeable wholesome and cleansing effect on agents and United States attorneys alike.

DAWES RUSHES TO MACDONALD

Washington Note on Navy Byrd Christens Buildings Cut Brings All-Night Trip

Communication Said to Be from President

Ambassador and Premier Discuss Development

(Copyright, 1935, by Chicago Tribune.) LONDON, Aug. 19. (Exclusive)—Following the receipt of what is learned to have been a highly important official communication from Washington regarding naval disarmament, Ambassador Dawes made an all-night dash to Scotland last night, and today discussed the new developments with Prime Minister MacDonald at the latter's home at Leamouth.

Though the American Ambassador had announced that he would resume informal interviews with the Premier at Elgin on Friday, his hurried trip north last night came unexpectedly.

The official communication from Washington came on Friday and was immediately relayed to Mr. MacDonald, who invited Gen. Dawes to come and see him at once. Official circles here are guarding the contents of the communication as a close secret, though it is indicated that it came as a personal message from President Hoover, and that the government considers it as marking a definite progress in the naval discussions.

After remaining at Leamouth for an hour, Gen. Dawes, accompanied by Mr. MacDonald, town official, Dana Davies and his wife, Mr. Mills, lunched at a hotel in Elgin. After lunch the statesmen were closeted for more than an hour in private discussions.

This evening Gen. Dawes left Leamouth for Blair Atholl, in Perthshire, where he will be the guest of the Duke of Atholl at the latter's hunting lodge. He will return to Elgin Friday, when the Prime Minister receives the freedom of the town, and where the conversation will be continued.

NEW VETERANS' BODY FILES INCORPORATION

SACRAMENTO, Aug. 19. (P)—The All-Veteran League for Service Organization filed articles of incorporation with Secretary of State Jordan today. The expressed purpose of the league is "to unite all veterans' organizations into one." Incorporators named are R. R. Shepley, R. H. Stone, E. E. Cameron, F. N. Ayers and E. A. Lane, all of Los Angeles.

POLAR SHELTER HOUSES NAMED

Byrd Christens Buildings for His Friends

Various Structures Honor Expedition's Aides

"Biltmore" Not Mess Hall's Appellation, Though

BY RUSSELL OWEN

(Copyright, 1935, by the Los Angeles Times. New York Times and N. Y. Herald Tribune. All rights for publication reserved throughout the world.)

LITTLE AMERICA (Antarctica) Aug. 19. (Exclusive)—Commander Byrd has named the buildings and snowhouses containing stores and scientific equipment in Little America in honor of his friends. Although our community is a small one it has a number of houses.

The weather station and kite house is called the La Gorce Weather Station after John Oliver La Gorce of the National Geographic Society. The radio station has been named the Ocha Radio Station after Ocha, publisher of the New York Times. The Harry Guggenheim Hangar and Machine Shop have been named after the head of the Daniel Guggenheim Foundation for the Promotion of Aeronautics. The Fodick Gymnasium is named for the children of the Rev. Harry Emerson Fodick and Raymond B. Fodick.

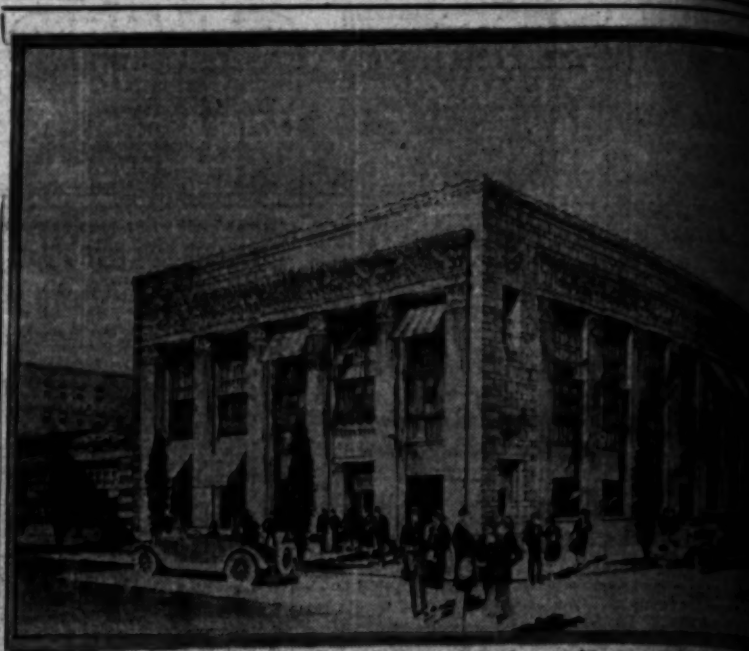

The Norwegian living-house in back of the mess hall is called the Blizz in honor of Jack Bowman, owner of the Biltmore Hotel in New York, where Commander Byrd had his headquarters during the days of preparation. The house built and occupied by Braden and Walden is called the Block House after Paul and Billie Block, sons of Paul Block, Newark publisher.

The magnetic house where magnetic measurements are made is called the Carnegie Institute House and the medical storehouse the Orier House after Dr. G. E. Layton Orier of Milford, Del.

The administration building is named after Edgar Barratt and the mess hall is named for his son, Howell Barratt. The north landing-field is called the Charlie Bob Landing-Field and the south landing-field the Raymond Fodick Landing-Field. The library is named after David Layman of New York City.

UNIONS CALL STRIKE

BUENOS AIRES, Aug. 19. (P)—Advices from Rosario today said that labor unions there have declared a general strike to take effect at 8 a.m. Wednesday morning and to last an undetermined length of time. Omnibus conductors have not adhered.

Wilshire-La Brea Office — Seaboard National Bank

The permanent home for the Wilshire-La Brea Branch of the Seaboard National Bank, is being erected on the Northwest corner of Wilshire and Dunsmuir. It will be ready for occupancy about January first.

This will be one of the most modern branch banking offices in the West. Temporary offices for the branch will be opened about September sixteenth in the Tower Building.

CASH PROVIDED TO AID COTTON

Federal Board Will Loan Full Value of Crop

Growers "in Distress" Named to Get Advances

Ten Millions May Be Needed for Years' Operations

WASHINGTON, Aug. 18. (AP)—Cotton growers are to receive the full cash equivalent of this year's crop in advance whenever they are "in distress and must have money," under plans announced today by the Federal Farm Board.

The funds will be advanced through the cotton co-operatives, the board itself will advance 25 per cent of the value of the crop, 45 per cent will be loaned by the Federal Intermediate Credit Bank, and the remaining 30 per cent will be paid from the capital reserves of the co-operatives.

How much money actually will be required is said by the board to depend solely on the needs of the co-operative associations. It is expected that the sums involved in this year's marketing operations will run somewhere between \$5,000,000 and \$10,000,000, but board members say they stand ready to go as far as the industry requires.

The advance to be made by the board will be on cotton on which "a definite value has been fixed by hedging in the future market."

The advance to be made by the board will be on cotton on which "a definite value has been fixed by hedging in the future market."

Under the present program, the Stabilization Corporation has been given assistance for handling the fresh grape industry and all raisin problems have been turned over to the San-Mateo Raisin Association. No contract for the purchase of raisins will be executed this year by the Stabilization Corporation.

The Farm Board still has under consideration the question of by-product operation, and it is expected that it will act favorably on this third angle of the problem.

"The board has expressed its purpose of making a complete study of the grape problem in California, and we, of course, will expect it to fully co-operate with the board in its studies looking toward a permanent plan of operation for the industry."

"Fortunately, we are in a most favorable position, statistically, at the present moment. The crop is short, and there will be no carry-over at the end of the season. No grape grower in California should become panicky or sell his grapes or raisins at ruinously low prices. Because of the actual shortage of raisins during the coming year, every grape grower who can, should, unquestionably, put his grapes on trays."

Those who ship raisin varieties fresh should certainly not make cash sales at the present time at prices under those proposed originally by the Stabilization Corporation.

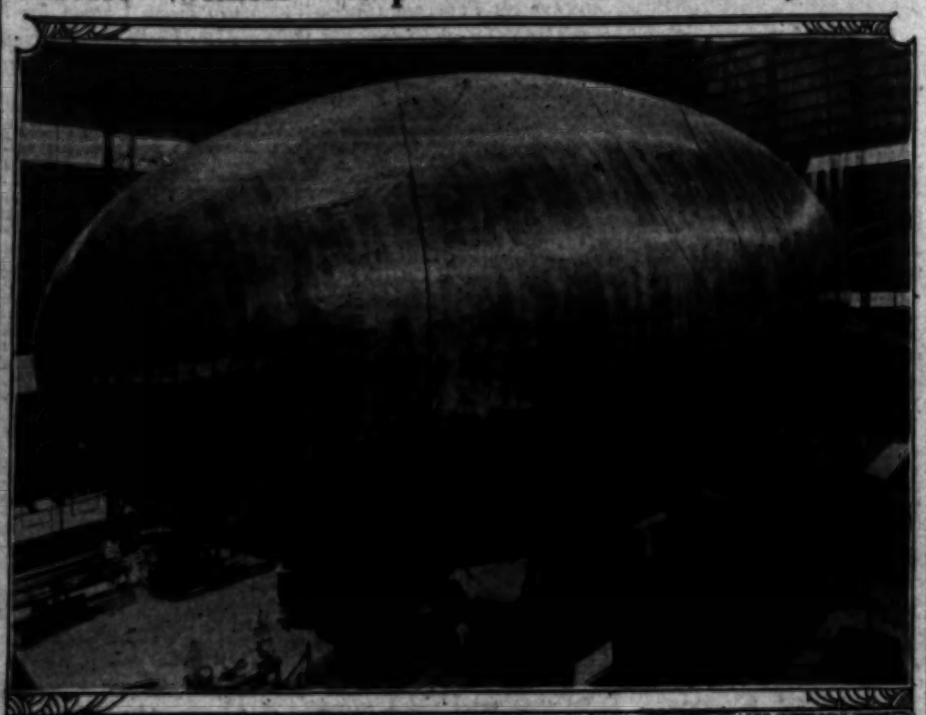

The growers undoubtedly understand that in order to realize the greatest return for themselves, they should, particularly in the fresh field, fully support the task of the Stabilization Corporation in co-ordinating the distribution of their products."

CREDIT BANK WILL HELP RAISIN INDUSTRY ONLY

BERKELEY, Aug. 18. (AP)—The Federal Intermediate Credit Bank of Berkeley will participate in the \$5,000,000 loan authorized by the Federal Farm Board to stabilize the California fresh grape and raisin industry only in so far as the marketing of raisins is concerned. W. B. Ellis, president of the bank, announced today. The Agricultural Credits Act of 1923, he pointed out, provides that intermediate credit banks can finance nonperishable goods only.

FIRST ALL-METAL DIRIGIBLE SUCCEEDS

Officers Witness Auspicious Start of Navy Craft

REST MAKES NERVES HOT

BOSTON, Aug. 18. (Exclusive)—We "warm up" when we work or exercising. Everybody has made this fundamental physiological observation. But just how fast our muscles and nerves give off heat is a matter which has been left for the professional physiologist to measure.

At today's meeting of the International physiological congress Dr. A. V. Hill of the University of London, Nobel prize winner, told of some exceedingly delicate experiments which he has performed that measure the minute quantities of heat liberated by nerve and muscle fibers under various conditions.

Nerve fibers, he found, lose most heat during the process of recovery from fatigue; only about 5 per cent of the total heat lost goes out during the time before the recovery begins. Muscles, on the other hand, give off heat during stimulation and during the rest period that follows. If the stimulus has been severe and the muscle is deprived of oxygen during the rest period, the amount of heat given off may be increased to ten times normal.

EXPERIMENT MADE

Carbon dioxide, the gaseous by-product of respiration, "deadens" nerves to some types of stimuli. Dr. R. W. Gerard of Chicago reported. He exposed nerve fibers to an atmosphere of carbon dioxide and then measured the strength of an electric current needed to stimulate them to a certain point. He found that it required an increase of from 100 to 300 per cent in the current. You can't feed your goldfish by putting sugar into his bowl. Prof. August Krogh of the University of Copenhagen, wanted to know whether by any chance aquatic animals could "soak in" dissolved nourishment. He tried it on some fish and also on tadpoles and a small relative of the lobster known as daphnia. The quantities of glucose these absorbed were too small to be of any physiological use to the animals.

GAS ANESTHESIA

Gas anesthetics have become quite the mode in surgical circles lately. A new possibility in this field was presented by Dr. O. W. H. Lucas of Philadelphia and Dr. W. R. Henderson of Toronto. Their gas is known as cyclopropane. Anesthesia of surgical degree can be caused by a mixture of 11 per cent of this in oxygen. The discoverers claim that it is easy to take, leaves blood pressure and respiration practically normal while it is in action and has no bad after effects.

When your tummy gets to actin' up, the real fault may lie in some irritation of the colon—the large and frequently laxer intestine. Observations on anesthetized animals showed Dr. F. M. Smith and Dr. O. H. Miller of the University of Iowa medical school that the muscular action of the stomach could be markedly increased by irritating the colon or even by merely distending it with air.

The idea of a new type of doctor who will merely observe the course of an illness in a patient while other physicians concern themselves with curing it, was advanced in the opening address of the congress last night by Dr. August Krogh. Dr. Krogh believes that the conquest of disease can be greatly hastened if a group of properly trained scientists are freed from the labor of treating sick persons and left to build up the "physiology of disease" as a definite body of knowledge.

SINCLAIR'S APPLICATION SUBMITTED

Commutation Plea Filed in District of Columbia Supreme Court

WASHINGTON, Aug. 18. (AP)—The applications of Harry F. Sinclair, oil magnate, and Henry Mason Day, his business associate, to President Hoover for commutation of jail sentences they are serving for contempt of court, were submitted to Justice Gordon of the District of Columbia Supreme Court today by Leo A. Rover, United States District Attorney.

Judge Gordon was formerly United States District Attorney and he prosecuted Sinclair and Day. Rover said he thought his recommendations to the Attorney-General should be accompanied by those of Gordon.

The recommendations will be sent to Justice Frederick L. Siddons, who presided at the trials and imposed the sentences. Judge Siddons will return his recommendation to Rover, who in turn will transmit them to the Attorney-General. If the recommendations are favorable the Department of Justice will place the applications before President Hoover.

LAND SWINDLE CHARGES MADE

California Deal Involves Men in Minneapolis

Federal Official Will Issue Warrants for Trio

Indictment Charges Sale of Clay-Covered Tracts

ST. PAUL (Minn.) Aug. 18. (AP) U. S. Atty. Drift today announced he will issue warrants for three Minneapolis real estate men on charges of obtaining money under false pretenses and of using the mails to defraud, including an asserted California fruit-land swindle.

Mr. Drift made the announcement after receiving a request from acting U. S. Atty. Sheets, of the Northern California district, to begin removal proceedings against three asserted officers of the Sacramento Suburban Fruit Lands Company.

An indictment accompanying the removal requests named M. A. Crinkley, Edward E. Ambled and C. W. Whitcomb, all of Minneapolis, and charged that land offered for sale by the company is unfit for agriculture. The land is described as approximately 9000 acres of the Rancho Del Paso, located on the north side of the American River in Sacramento county.

Land on the south side of the river, the indictment asserts, is rich and excellent for agriculture, but that on the north side has a surface of five inches of clay and forty-eight feet of hard pan, composed mostly of sandstone, and was used for grazing prior to its sale to the company.

Charges were made in the indictment that the trio represented that the land would be worth \$1500 to \$2000 an acre in six months whereas it is not worth any portion of the \$225 to \$400 an acre for which it was sold.

"Gentlemen, make mine a Horse"

says H. C. WITWER, famous American Humorist

This is the time of the year for the writer to launch his nation-wide "Own Your Own Horse" movement, my masters, because it's almost New Model Time when auto proprietors get fit to be tied.

Gangs of skilled workmen are busy oiling up adjectives that will make a gooseneck tire-carrier sound more important than the burning of Rome.

Skilled engineers are hunting through dictionaries for bigger and better phrases. A huge force of polishers is dusting off that big word NEW and getting it ready for this year's campaign.

Then after teasing you to watch, look and listen, up goes the curtain on a new model which tells you the designers had a few more thoughts and got out something which makes your one-year-old car look like the first auto ever concocted.

Next in importance after completely changing the body lines away from last year's, no matter what they was, comes a flock of dazzling improvements which they was able, by some strange magic, to jam onto a car which they had already spent days telling you was twice as perfect as perfect itself. But the mystery kind of fades when you find out that these revolutionary advantages are generally such hair-raisers as door-handles which turn left instead of right; famous Ts Mahal design tail-light; gilt four-leaf clover (and you'll need it) on the instrument board; scientifically balanced rug-rail, etc., etc., and even etc.

By the time you get through reading about the new model you feel like going out to your car which seemed almost new yesterday and see can you find any arrow heads or other relics under the seat. If it'll run at all, which seems out of the question after seeing the list of all the improvements it hasn't got, you'd hardly dare roll around in it in the day times because people would always be asking you did you still wear peg-top pants.

Then the worst comes to the worst and you find the wife has been showed about the new model by that woman next door, which is also the one who's kid give Junior measles. So the next time you drive the car up to the door of your igloo she looks at it like it was something puss dragged in on a rainy night and makes some remark such as don't you think the new model has got this looking like something Washington might have slept in and hadn't you better turn it in for one of those new models, even if it does hit us some four or five hundred dollars depreciation.

It's right then that the salesman of the Witwer "Own Your Own Horse" movement will get your name on what I'll call the dotted line, if I'm allowed to call a expression. The advantages, unlike Paris, may be saw at a single glance. You see, patrons, when you own your own equine you don't have to toss about nights worrying that somebody will bring out a new model on you.

It don't make no difference whether you get a tall horse or a short horse or even a Shetland pony, if the latter is your price class. Which ever make of steed you select, you can bet all the tea in China that no smart horse manufacturer's coming out with a new horse which has streamline legs and square ears and makes a bum out of your last year's horse.

You can stake yourself to a July 1929 horse without being afraid to read the papers for fear of seeing that the new and improved late 1929 pal-

freys will be displayed next week. For some reason, the horse makers don't go over their horses each year and suddenly find out they was a couple hundred things they forgot to put on 'em and if you had one; why, that's your hard luck.

So my earnest plea to each and every inhabitant of the globe (and that means you too, you little Esquimaux you) is to think these facts over, and join the great Witwer movement in saying, "Gentlemen, make mine a horse!"

H. C. Witwer

"Mr. Witwer," say we, "make yours a REO"

Reo is not, and never has been a "party model" car.

This does not mean that Reo stands still. Reo has always marched at the head of the automobile parade. It's pioneered left-hand drive, center control, ball joint, the new world-famous internal-hydraulic brakes.

But Reo has now "upped up" their revolutionary advances for "new models." They were embodied in Reo as soon as

Reo's usual period of testing had proved them worthy. That's why the Reo of today represents, not just another "model"—but the grand result of a never-ending evolution in motor car manufacture.

That's why, when the "new model" Reo comes in a few weeks, Reo will be conspicuously ahead.

So, if you are looking for an automobile which, like the very highest priced cars, has that graceful simplicity of design that never goes out of style...

If you are looking for an automobile whose advanced construction has won and held for it the title of the "Engineers' Ideal Car"—whose motor is the world's standard of comparison—whose brakes are known as the safest made... If this is the kind of a car you want—a car you can be proud of, not for any year, but for five or even ten... Then there is just one car for you to buy—the Reo Flying Cloud!

Figueras Playhouse Scene of Drama Premiere

BY PHILIP K. SCHUEER
George Scarborough's "Bad Babies," a play in bad odor, finally had its premiere last night at the Figueras Playhouse after delays which extended over a year but were not long enough, apparently, to discourage it. A representative audience sat in their abashed seats during three pounding acts and watched a phantasmagoria of cardinal and carnal sins move in alphabetical disorder across a stage whose boundaries tapered off into Hades; and when each curtain fell, applauded the actors as politely as they might without making it seem that they could, by any possible mischance, be eager for encores.

How far we have come from Booth Tarkington and "Penrod," to be sure! The fortunate reader of Richard Hughes's astonishing fantasy, "The Innocent Voyage," will not have been totally unprepared for the errors of juvenile commission with which Mr. Scarborough littered the Playhouse boards, the ice once having been broken over the youth myth, but neither will he have quite expected to contemplate the spectacle of boys and girls of high-school age ripped open and exposed to the pitiless white light of vivisection before his very eyes.

The American drama oversteers its bounds when it cuts deep, searing gashes without healing them, if for no other reason than that the business of offending the sensibilities is a thankless one in this country. Even if the playwright were granted enough to make the actuality the equal of his mind's eye (which here he is not), he would speedily discover that like others before him, America does not want "messages" with its tickets.

"Bad Babies," then, is a monochrome etched in mud. The entire action occurs in the miasma living-room of the apartment of "the same" within the confines of which—or at least within "phoning distance"—a series of crimes are listed strategically in the space of four days. In staccato gutter dialogue, often pungent, (as, indeed, how could it help being?) slight "babies" express their hopes, their joys, their sorrows and their reactions to the force we dismiss so grandly and so inadequately as Life.

Mr. Scarborough is an old hand at the theater. He knows the tools of his craft; and on the grand structure of his plot he has erected a tier of scenes which grip momentarily through the sheer brute force of the hammer which drives their nails. This, he cries, is what your jazz age has done to these children—and because we gaze upon them and they are so very young, we feel a surge of pity. But it goes deeper than that, and herein lies the error of our playwright's way: we realize that he has taken us into a realm that lies beyond the pale of our make-believe world, and our remembrance rises above our power to appreciate whatever he may have to tell us. The violent deaths of his two chief protagonists come as a belated eye to his feeling of resentment, but it cannot extinguish it. It comes too late.

A cast that furthered the illusion, such as it was, to a considerable degree, and brought out much that was on the creator's mind, was led by Mervin Williams and Annette Westday as the principal promiscuous-arch conspirators. Williams terminated a long-felt absence on the local stage by appearing as Paul, the youthful "gambler" of the gang. His work, keyed to a high pitch throughout, was on the whole excellent. Miss Westday achieved a certain theatrical persuasion as Tanya, the final addition to the ranks of bad babies.

Among the others, Johnny Nelson scored particularly in the role of Oddie, who waded to a kick out of life and died; Arthur Rankin and Norman Peck contributed able performances as Micky and Tad, and Elinor Elynn had a dying scene which she made realistic enough for the most moribund-minded. Dario Rhindell and Marjorie Montgomery completed the personnel.

If you like your morbidity administered in large doses, you may find the "kick" that calls sought in "Bad Babies"; but it might be wise to carry, somewhere on your person, and just in case, a stomach pump for emergency.

MYSTERIES EASY FOR MEIGHAN
"Argyle Case" Features Rubber-Heel Activities at Warner's

BY P. K. S.
His brow furrowed by much deep thinking, Thomas Meighan applied himself grimly to the mystery of "The Argyle Case" at Warner Brothers Theater yesterday. As Alexander Kayton, "sort of a combination Sherlock Holmes and Craig Kennedy," he succeeded in annoying a number of persons in the cast of this Vitaphone picture until he got his man. The production incidentally marked his entrance into what is usually called the sordid ranks, and is therefore regarded as something of an event.

The treatment of this old foot-light potboiler in the talks is no better or no worse than one has a right to expect. It does seem, however, as if the great Kayton might have gone about his sleuthing in a less complicated manner. Nor is the hocus-pocus with which he surrounds his activities made any more impressive by the presence of his hirelings, the pair of them being made to appear so stupid that it is a wonder he tolerated them for a minute.

Suspicion of murder falls at various times on all the members of the Argyle household, among them Lila Lee, Zasu Pitts, John Darrow and Douglas Gerrard. The family lawyer, played by the veteran H. B. Warner in a fashion to make the rest of the players look searchingly at their performances in a mirror, likewise comes under the scrutiny of the great Kayton. So, also, does a mysterious Mrs. Martin, portrayed so competently by the late Gladys Brockwell that one is moved again to express regret at the loss incurred by her death.

"The Argyle Case" is largely set out against static backgrounds, the burden of the unfolding (falling upon the dialogue) of this there is a plethora: Miss Pitts, for instance, being unfortunately played as an extremely garrulous housekeeper of the sort beloved by playwrights in the name of "comedy relief." Mr. Meighan speaks his lines satisfactorily, but one senses underneath a curious uneasiness and overconcentration on them. His is a heavy performance unrelieved by the saving grace of humor.

It is axiomatic—if it isn't now, so—that one does not expect to find notable acting in a tale dealing with the ungainly art of murder. To be vicious comedy from start to finish and marks the second talking picture appearance of Jack Oakie and Skeets Gallagher.

Oakie is cast as Elmer, the home-run-bitting country boy who is discovered by a New York Yankee scout, played by Skeets Gallagher, and who becomes the world's greatest ball player. Gallagher later saves Oakie from disgrace when he becomes mixed up with gamblers.

Evelyn Brent has the feminine lead and portrays a musical comedy star with whom Oakie falls in love. Owen Lee is cast as her dancing and singing partner. Miss Brent and Miss Lee bring romance and difficulties to Oakie and Gallagher. Sam Hardy, veteran of the stage and screen, portrays the role of the baseball manager. The current attraction at the Paramount is "The Mysterious Dr. Fu Manchu" with Warner Oland playing the titular role.

Home-Town Boy Makes Good in 'Fast Company'

With the first week of Greater Movie Season coming to a close, the Paramount Theater announces that its second picture of the new season, "Fast Company," starts Thursday. "Fast Company" is an all-talking screen adaptation from the Ring Lardner play, "Elmer." It is the story of a 10 o'clock boy in a 9 o'clock town who becomes the sensation of New York. The picture is called "Fast Company" because it is a fast-moving comedy from start to finish and marks the second talking picture appearance of Jack Oakie and Skeets Gallagher.

Oakie is cast as Elmer, the home-run-bitting country boy who is discovered by a New York Yankee scout, played by Skeets Gallagher, and who becomes the world's greatest ball player. Gallagher later saves Oakie from disgrace when he becomes mixed up with gamblers.

Evelyn Brent has the feminine lead and portrays a musical comedy star with whom Oakie falls in love. Owen Lee is cast as her dancing and singing partner. Miss Brent and Miss Lee bring romance and difficulties to Oakie and Gallagher. Sam Hardy, veteran of the stage and screen, portrays the role of the baseball manager. The current attraction at the Paramount is "The Mysterious Dr. Fu Manchu" with Warner Oland playing the titular role.

PRODUCTION STARTED
Lloyd Bacon this week started work on "She Couldn't Say No," a Warner Brothers Vitaphone production starring Winnie Lightner, musical comedienne.

"Lucky Star" to Gleam Brightly

Charles Farrell and Janet Gaynor Portray the lovers in a part-talking picture, scheduled to open tomorrow at the Criterion Theater for an indefinite run. Fox is the producer and Frank Borzage the director.

"GLORY" SEQUEL BOOKED

Bidding against keen competition, M. B. Franklin, president of Fox West Coast Theaters, has secured "The Cock-Eyed World" for its western premiere at Grauman's Chinese. The announcement was made after lengthy negotiations with W. R. Sheehan, vice-president and general manager of the Fox Film Corporation.

Because of the picture's startling success at the Rialto Theater in New York, where, in its first two weeks' showing every theatrical record in motion-picture history was smashed, Franklin and his West Coast associates are looking forward to an unprecedented run at the local playhouse. Two weeks ago their further adventures of "Plage and Quirt" first were thrown on the screen in New York. At the end of the first seven days a new world record for attendance and box-office receipts had been rung up.

A Raoul Walsh production, "The Cock-Eyed World" co-stars Victor McLaglen, Edmund Lowe and Lily Damita. Written by Lawrence Stallings and Maxwell Anderson, the picture is another "What Price Glory" with the war left behind, but with all the former laughs and many more added. No opening date has been set.

M. ITO PRESENTS PLASTIC MOTION

Interesting Studies in Design Set Forth in California Background

BY ISABEL MORSE JONES
The third of a series of dance recitals at the Argus Bowl in Eagle Rock arranged by Mito Ito, took place last night before a small amphitheater filled to the brim with distinguished spectators. Artists from the dancing, musical, literary and painting groups gathered weekly on Monday nights to watch the Ito dancers go through their stylized designs with the human body as a medium.

Of course, the dances of M. Ito, "The Two Fans," "The Fox Dance With Mask" and the final "Burlesque Dance," took precedence over all the others. The second dancers are the shadows of the sun in comparison. Dorothy Wagner in the Ecstasy, a medieval conception of the seductive, and Beatrice Baird in the second picture, which exemplifies the Ito technique, and again in a Chopin Etude and the Faun by Yamada, demonstrated her fitness to be called the perfect disciple.

Georgia Graham in her own dance creations was quite charming in a wistful, appealing way, and Beatrice Baird in the second picture, which exemplifies the Ito technique, and again in a Chopin Etude and the Faun by Yamada, demonstrated her fitness to be called the perfect disciple.

An inconsequential playlet in the Japanese humor provided a vehicle for Ralph Mason, Lester Horton and Thomas de Graffenried.

Hollywood Bowl to Greet Bruno Walter Tonight

Weber's festive overture to his opera, "Pelechus," last heard here in 1927, tonight reintroduces Bruno Walter, noted German conductor, to Hollywood Bowl audiences.

The plucky Fourth symphony of Tchaikovsky, ranked by many critics as the most innately typical example of the composer's characteristic manner, will be a feature. The entire second part of the program is devoted to Hector Berlioz. Excerpts are given from his unsuccessful opera, "Benvenuto Cellini," and from the successful one, "Damnation of Faust." The overture to the former, to be rendered tonight, is another selection, "Roman Carnival," and, in fact, the only fragments that remain in current repertoire.

The enchanting "Minuet of the Will o' the Wisp" from "Damnation of Faust," directed here by Walter in his previous brief season at the Bowl, will be repeated, as will the famous Rakoczy march of the opera, also included in the previous Walter season.

Silver Designs Theater Stage

The stage now being used in the star sequences of "Married in Hollywood" was especially designed under the supervision of Marcel Silver, Fox director, and a recognized specialist in the production of musical spectacles for the screen. "The average width of a stage," says Silver, "is forty feet. If you take forty feet as base of the camera-field, the people you photograph will appear about as big as ants. This fact makes necessary a radical change in the way of staging the action, and conditions the problems of the present-day director of screen opera."

"The Argyle Case" was directed by Howard Bretherton. Two Vitaphone short subjects, one presenting Willie Anderson, Howard in "The Music Makers" and the other "Gentleman Jim" Corbett, share the supplementary bill with Pathe Sound News.

WARNER FILM AT RITZ
"Madonna of Avenue A," the Warner Brothers' special production starring Dolores Costello, will play at the Ritz Theater for two days beginning today. It was directed by Michael Curtiz, who also directed the spectacle of biblical times, "Noah's Ark."

MODERNISM PROMISED AT LOEW'S

"Our Modern Maidens" to Bring Joan Crawford and Other Noted Players

"Our Modern Maidens," portrayed by Joan Crawford, Anita Page, Josephine Dunn, and their male companions, Rod LaRocque, Doug Fairbanks, Jr., Eddie Nugent and others, will disclose modernistic trends when the picture starts Thursday at Loew's State.

This will be the theater's second offering for Greater Movie Season and the management fully expects to set up a new record, smashing the one made by Greta Garbo last week in "The Single Standard."

"Our Modern Maidens" was written by Josephine Lovett, who also penned "Our Dancing Daughters." Many of the same stars, who appeared in that picture are also in the cast of the new film. Jack Conway directed.

The management announces that an extra show will be added to each day's schedule in order to accommodate the crowds. "Salute" the current screen offering closes Wednesday night.

Mitchell Play Scores Hit in German Capital

Word received from Berlin by Thomas Mitchell, coauthor and featured player in the "Little Accident," now in the second week of its brief engagement at the Belasco Theater, states that this unique farce has scored as great a hit in the German capital as it did in New York and Los Angeles.

"Little Accident" was scored for German production by Max Reinhardt in New York on his recent return trip from Hollywood to his home. It starred the Max Reinhardt Theater in Berlin the same night that it made its initial debut in Los Angeles. Brief cable reports announced that it had scored a hit with the first-night audience, but the longer cable letter just received gives more of the details as to its reception by the Berlin theatergoers.

The farce scored a great success locally and has been the outstanding hit in the Belasco since the first showing of "Front Page," but will only remain there a few more weeks as the entire cast must return east to begin an engagement in Chicago.

"Mother's Boy" Next Feature at Boulevard

Morton Downey, golden-voiced tenor, will appear at the Boulevard Theater Thursday in his latest production, "Mother's Boy," an all-talking all-singing story of Broadway.

This is Downey's second picture since "Syncope," but his first west coast showing since that production.

"Mother's Boy" was made in the East and boasts not only a metropolitan cast, but scenes taken in Downey's own night club, the Club Cassanova, where he was first brought to the attention of theater producers. There are three songs from the picture that are popular now in New York and which Downey sings in inimitable style.

"Mother's Boy" is a human, thrilling story of everyday life, it is said. It tells of a boy and his struggles, his defeats and triumphs. The picture might be termed a love story told in song. An elaborate stage show has been prepared with Lynn Cowan, the dapper melody master, with his band and girls in "The Melody Revue."

Carthy Circle Continues Run of "Dynamite"

"Dynamite" stays at the Carthy Circle. Carl Elmer, managing director of the theater, announces that the Cecil B. De Mille-Metro-Goldwyn-Mayer production will remain indefinitely.

Indeed, from present indications there is no way of telling just how long "Dynamite" will continue its prosperous run the announcement said.

Word-of-mouth publicity concerning this talking thriller with its tense drama, and powerful scenes forced theatrical men to recognize that "Dynamite" will keep on building up for several weeks more.

Carl Elmer's "American Indian" overture, featuring Elsa Grosser, soloist, has attracted much attention in musical circles and is a noteworthy feature of the complete Carthy Circle program. Elmer is following in extraordinary and dates back nearly a decade.

Vaudeville Time Once Played by Wallace Smith

Wallace Smith, film author and artist, who adapted "Building Drummond," now showing at the United Artists Theater, and Ben Hecht, co-author of "The Front Page," once had an act in small-time vaudeville, according to a statement appearing in a biography of Smith by R. K. O., where the writer is contracting to write screen plays and dialogue.

In this act, Hecht played a violin and the ambitious Smith, who had been a Washington correspondent, world traveler, illustrator and editor, gave a chalk talk as an accompaniment to the music. It is reported. Another interesting disclosure is that Smith and Hecht at one time were editors of a noted Chicago literary paper. Smith has made some startling black and white drawings for Hecht's various books.

PIG'S WHISTLE EARNINGS GAIN

Restaurant Company Issues
Annual Report

Increase Over Previous Year
145 Per Cent

Equals \$1.81 Rate Per Share
on Common Stock

Substantial increases were registered in both sales and net profits of the Pig's Whistle Corporation during the fiscal year ended June 30, 1932, according to the company's third annual report, released following the annual meeting yesterday. Sales for the year were \$1,011,248, an increase of 123 per cent over the previous year.

Net earnings were \$151,804, an increase of 145 per cent over the preceding year and equivalent to \$1.81 a share on 85,000 shares of participating preferred stock outstanding. Earnings were also equivalent to \$1.81 a share on 85,000 shares of participating preferred stock outstanding.

The balance sheet at June 30, 1932, showed a strong current position, all notes payable having been liquidated. Cash on hand as of June 30, 1932, was \$29 per cent greater than a year before and was equivalent to more than fifteen months' dividends on the participating preferred stock.

At June 30, 1932, showed a decrease of 27 per cent from a year ago, although a larger number of units were in operation, indicating improvement in operating efficiency, the report stated.

NEW UNITS ADDED

During the period covered by the report, two additional stores were opened, bringing the total in operation to 23. It will be shortly increased to 25.

Current assets as of June 30, 1932, totaled \$1,011,248 and current liabilities amounted to \$171,500. Total assets were listed at \$1,011,248. The earnings statement for the year is as follows:

(Continued on Page 14, Column 4)

Associated Telephone Co.
Associated Tel. Utilities Co.
Units

Consisting of three shares of \$1.50 Preferred Stock of the Associated Telephone Co. and one share of Common Stock of the Associated Telephone Utilities Co.

We recommend the purchase of these units.

Price at the market
About \$100 per unit.

INVESTMENT BANKERS TO PICK CHIEFS

Trowbridge Callaway of New York Nominated as Head of Association

Trowbridge Callaway, a member of the house of Callaway, Fish & Co., New York City, has been nominated for the presidency of the Investment Bankers' Association of America, according to the official bulletin of the association issued in advance of the eighteenth annual convention at the Chateau Frontenac, Quebec, October 12 to 15, inclusive.

Nominations for other officers and governors to be voted on at the convention include the names of two Pacific Coast bankers. William C. Clarke of George H. Burr, Conrad & Broom, Inc., Portland, Ore., is up for the vice-presidency and John H. Little of Chicago, Ill., is up for the governorship of the association.

Albert E. Schwabacher, of Schwabacher & Co., San Francisco, who is at present a governor, is nominated for an unexpired term ending 1930, succeeding Trowbridge Callaway.

Goodrich-Hood Deal Approved

NEW YORK, Aug. 18. (Exclusive)—Directors of the B. F. Goodrich Company approved today a consolidation of the company with Hood Rubber Company, one of the largest eastern independent rubber concerns, on the basis of an exchange of stock. Directors of the Goodrich company have already approved the merger.

It is proposed to offer one share of the Goodrich common stock for each share of Hood common stock. The plan provides that Goodrich shall acquire the assets and business of the Hood company through a subsidiary which will assume the Hood company's debt. All of the Hood and Hood Products Company preferred and special stock shall be paid off in cash at various call dates at their respective redemption prices.

Stockholders of the Hood Rubber Company have been called to a special meeting on the 20th inst. to authorize the transaction. The Hood company is located at Watertown, Mass.

NEW FINANCE UNIT FORMED

Goldman-Sachs Announces Formation of Investment Trust With \$127,500,000 Assets

NEW YORK, Aug. 18. (Exclusive)—A new investment organization to be known as the Blue Ridge Corporation, has been organized by the banking firm of Goldman, Sachs & Co., and will start business immediately with assets aggregating more than \$127,500,000.

The offering of the corporation's dividends and 1,000,000 shares of no par value common stock at \$20 per share.

Holders of the preference stock will be entitled to cumulative dividends at the quarterly rate of 1-1/2% of a share of common stock or at their option, 75 cents a share. The preference stock will be convertible at any time into one and one-half shares of common.

MERGER OF AIR UNITS NEXT

Talbot-Hanshue Group May Combine Midcontinent, Aero Corporation, West Coast, Western Air Lines

BY EARLE R. CROWE

Inauguration of operations in about ten days of the newly organized Midcontinent Air Express, one of the Talbot-Hanshue air projects, suggests that the time is not far distant when all of the transport companies in which this group is interested will be consolidated under one corporate structure. The new line will interconnect at several points with other lines in which Messrs. Talbot and Hanshue are influential figures, and will furnish the final link in what can be easily made the most comprehensive network under one control in the western States.

Midcontinent Air Express will run from Denver to Kansas City via Dodge City, and from Denver to El Paso via Albuquerque. Airport arrangements have been completed in the various cities, and new trimotored Fokker transport planes have been ordered and will be ready for service.

HOLDING COMPANY LIKELY

With this line in operation the changes are that the next move of the Talbot-Hanshue group will call for a physical union of the entire group of air-transport companies in which it is interested. This combination would include Western Air Express, Aero Corporation of California, West Coast Air Transport and Midcontinent Air Express. Probably a holding company would be evolved as the vehicle for such a program.

Of these companies, Western Air Express and Aero Corporation of California are the only two publicly owned. Western Air, the most widely known of the group, is regarded as the most successful air line in operation anywhere, while Aero Corporation is rapidly coming to the front with its Los Angeles-to-El Paso line as a company with good possibilities. The latter, moreover, would be expected to assume a strong position in whatever consolidation may be arranged as the unit operating flying schools, taxi service and operating airlines and motor sales and services.

Combined into one system the four operating subsidiaries would form a network of air lines flying some miles daily than any other air transport line in the world. The line would extend from Seattle to Los Angeles via West Coast Air Transport, San Francisco to Los Angeles via Western Air Express; Los Angeles to Phoenix via El Paso via Aero Corporation; Denver to Kansas City via Midcontinent Air Express. In addition, Western Air Express operates the Chicago to Denver line, and from Los Angeles to California Island, and Aero Corporation flies from Los Angeles to Big Bear.

ZONE POLICY INDICATED

So far the Talbot-Hanshue interests have indicated their activities to the western States and have stayed out of the transcontinental transportation business. This policy seems to indicate that the group is committed to some development along intensive lines. More than one authority on aviation development has predicted, incidentally, that this is the trend. These authorities believe that the country will be divided into zones and that out along economic and geographical lines, each of which will be dominated by large holding companies controlling the strategically located air lines.

Some development, furthermore, will probably lead to greater operating efficiency, which carries with it important competitive advantages in bidding for air-mail contracts. Undoubtedly the air-mail possibilities at any time into one of the Talbot-Hanshue activities in western transport lines.

In connection with this suggestion of an impending consolidation of the foregoing transport companies, it would not be surprising to learn that the project would have the active support of the General Motors-Ford group and the Fisher Brothers of Detroit. The Fisher Brothers and associates are understood to have been interested with Messrs. Talbot and Hanshue in the deal that brought the Aero Corporation of California under their wing.

TEXAS COTTON IMPERILED BY LONG DROUGHT

MEMPHIS (Tenn.) Aug. 18. (Exclusive)—Reports of the average date of the 14th inst., to the Commercial Appeal, indicate that the Texas cotton crop is very near the point of irreparable injury from drought damage; elsewhere over the belt, the crop on an average appears to be about holding its own. Drought in Louisiana and in southern sections of Mississippi, Alabama and Georgia seems to have been offset by improved prospects in the Carolinas and in northern portions of the belt elsewhere.

The crop in Memphis territory continued to show a declining trend in response to favorable weather conditions and unhindered in any important way by insect trouble except a recent outbreak of leaf worms.

The Carolinas report heavy weevil damage where no poisoning was done. Recent weather conditions have helped to control weevils in the Carolinas. Fields are clean—usually clean—and in most instances are well cultivated.

NEON UNIT FORMED IN MONTANA

New Organization to be Licensee of Washington State Company

Organization of Electrical Products Corporation of Montana as the newest member of the Neon light group in the Western States was announced in Seattle by George K. Comstock, executive vice-president of the Electrical Products Corporation of Washington. The Montana company will be a licensee of the Washington company and will have a manufacturing plant in Great Falls, Mont.

Capitalization of the new company will consist of 100,000 shares of \$100 par value preferred stock and 1,000,000 shares of \$1 par value common stock, of which 600 shares of preferred and 494 shares of common are to be held by the Washington company in exchange for its unexpired contracts and license in the State of Montana. Of the balance, 396 shares of preferred and 506 shares of common have been sold for cash, while the remaining 311 preferred and 1,000 common have been given to an established company for its plant and business.

Of the total 1,000 shares outstanding of both classes the Washington company has 494, representing voting control. Both classes have voting rights.

Directors of the Montana company will comprise J. E. Woodward, president of the American Telephone and Telegraph Company, Butte; S. A. Stephenson, president, First National Bank, Great Falls; Harold Green, attorney at law, Great Falls; and George K. Comstock, vice-president, Electrical Products Corporation of Washington.

The Washington company, according to the announcement, will receive a 1 per cent royalty on gross business done by the Montana company.

FRESHMAN AND KOLSTER RADIO MERGER LOOMS

NEW YORK, Aug. 18. (Exclusive)—Negotiations have been instituted for a merger of the Kolster Radio Corporation with the Charles Freshman Company, it was learned today. Although officials of both companies are loath to comment on the report, it is understood that the actual consummation of the deal will be effected within the course of the next few weeks.

While the terms have not been decided, on the basis of current market quotations it would appear reasonable to assume that an exchange ratio of three shares of Charles Freshman common for one Kolster Radio common share will govern the consolidation.

The union of the two companies would form one of the largest organizations in the radio industry on the basis of sales volume alone. Several other factors also play an important part in making the proposed consolidation advantageous, including Kolster's strong patent position and Freshman's manufacturing facilities and its licenses under the Latour and Hamelin patents.

OIL COMPANY STOCK LISTED

Common stock of the Ambassador Petroleum Company has been approved and will be called for trading tomorrow on the Los Angeles Curb Exchange. Phillip S. Leo, secretary and manager of the exchange, announced yesterday.

The company has 420,700 shares of \$1 par stock outstanding of a total authorized limit of 1,000,000 shares. It is controlled by the Wilshire Oil Company and is under the same management. George L. Macchris is president.

DENIAL GIVEN TO CLOTHING COMBINE

Charles Lyons, president of the Shapiro-Kornes, Inc., and Louis Roth, president of the Louis Roth Company, both manufacturers of men's clothing, denied yesterday that they are entering into negotiations for a merger of men's clothing manufacturers in this city. Both men stated their companies will remain independent.

COTTON MARKET

NEW YORK, Aug. 18. (Exclusive)—Reports of a heavy drizzle in the cotton belt were repeated today. The market was quiet, but offerings were steady. The cotton market was quiet, but offerings were steady. The cotton market was quiet, but offerings were steady.

CIGARETTE FIRE TOLL HIGH

United States Bureau of Standards Places Annual Loss from Source at \$45,000,000

BY JOHN F. SINCLAIR

(Copyright, 1932, by North American Newspaper Alliance.)

NEW YORK, Aug. 18.—The property loss from fire in the United States attributable to cigarette smoking amounts to \$45,000,000 a year. At least that is what the United States Bureau of Standards says in a recent report. And this does not include the damage where the cause was only suspected to be cigarette smoking, which in 1927 amounted to more than \$6,000,000—nor does it include the losses from grain fires started in the harvest of 1927, which the bureau estimates at \$10,000,000.

But in 1927 more than 30,000 fires are estimated to have been caused by cigarettes, and the bureau estimates that an effective method of education of the public would be to put a warning on cigarette packages, or on advertising matches. This, at least, would give an immediate warning to millions of smokers to be careful.

Cigarette and pipe ashes should be placed in a safe place, and not in a wastebasket, says the bureau. "Cigarette and pipe ashes should be placed in a safe place, and not in a wastebasket," says the bureau. "Cigarette and pipe ashes should be placed in a safe place, and not in a wastebasket," says the bureau.

William B. Moore, professor of government at Harvard University, and a member of the American people in a business way. Wall Street does not rule the American people any longer, it is the people themselves who are the rulers of the American people.

With the number of stockholders in the larger American corporations going into hundreds of thousands, the executive officers of the corporation become a larger and larger degree the trustees for the various people," said Mr. Clifford. "Business will develop and grow mightily to the degree that the managers of trust corporations, trusteeship and play fair all down the line. Otherwise, only catastrophe awaits modern civilization."

With the number of stockholders in the larger American corporations going into hundreds of thousands, the executive officers of the corporation become a larger and larger degree the trustees for the various people," said Mr. Clifford. COPPER MARKET HOLDING STEADY

Increase in Foreign Buying Chief Factor

Conditions Held Favorable to Price Advance

Lead and Zinc Trade Quiet at Previous Levels

BY CHARLES F. WILLIS

Editor of the Mining Journal, Phoenix

Improved foreign buying has

strengthened the copper market al-

though it has produced only rumors

of a higher price. Copper still

stands strong at 17.87 f.o.b. refinery

and lead and zinc at the same

prices, 6.75 f.o.b. New York and 6.80

St. Louis, respectively.

The lead market is rather quiet

and the buyers are generally wait-

ing for further developments. The buy-

ing was quite heavy following the

drop in price recently and at present

the buyers seem to have most of

the metal required. The London

market is better and justifies a

low price in this country but the

demand does not.

There is an evident desire for

business on the part of some of the

lead producers and a shading in

price to book the orders. While

many smelters are sticking to the

6.80 price which they set some time

ago, some metal is being turned at

6.75, the lower price being given

for lead for August and September

delivery.

ZINC STOCKS GAIN

There is some talk of promoting

a two week recess in zinc

production in the Tri-State field in

order to improve the statistical

position of that metal. The domestic

stocks of zinc increased during

July from 36,822 tons to 44,123 tons.

The production was 54,441 tons while

the consumption was 47,281 tons.

It is interesting to note that the

metal sold, but not delivered, totaled

26,267 tons, while the figure for the

same time last year was 18,886 tons.

As against a total return capacity of

120,775, there were but 71,222 op-

erating at the end of July. While

there has been a substantial gain in

zinc stocks, it is just about as high

now as it has been during the past

year and a half.

World production of zinc since

the month of June was 124,-

511 short tons, compared with 148,-

778 tons produced during May, a

decrease of 5004 tons. With the ex-

ception of January and February,

the output represents the lowest

total for any month since last De-

cember. The low point was reached

in February when the output was

121,996 tons. Of total world pro-

duction in June, the United States

contributed 22,823 tons, Belgium

18,239 tons, and Poland 18,198 tons.

Stocks of zinc on hand at the

end of the period were 74,000 tons.

FISHER'S WEEKLY INDEX

(Copyright, 1929, by Irving Fisher.)

The following table shows the average movement from week to week: (1) of the wholesale prices of 200 representative commodities (from Dun's Review); and (2) of the purchasing power of the dollar.

Date	Index	Percentage change from 1913-16	Number of times revised 1913-16	Percentage change from 1913-16
1929-May	102.3	-0.8		
1929-January	101.3	+3.9		
1929-Average	100.8	+1.9		
1929-Average	101.3	+3.4		
1929-Average	100.8	+100.0		
1927-Average	96.6	+1.8		
1926-Average	95.3	+2.6		
1925-Average	94.4	+2.6		
February average	97.7	+1.8		
March average	98.3	+2.0		
April average	97.1	+2.1		
May average	97.9	+1.4		
June average	97.0	+2.1		
July average	98.6	+1.4		
Week ended August 3	98.6	+1.4		
Week ended August 10	98.6	+2.8		
Week ended August 16	97.3	+2.8		

HELPING YOUR COUNTRY AND YOURSELF

During 1928, the United States paid over \$750,000,000 for ocean transportation, or more than \$2,000,000 per day. Foreign nations took \$1,333,000,000 of this money every day, including Sundays and holidays. A successful merchant marine is essential to the welfare of America and an investment in

UNITED STATES LINES, INC. Participating Preference Stock

not only helps your country, but it helps yourself. Under favorable government subsidies, the Company operates the finest and most up-to-date fleet of cabin vessels in the New York-European service and possesses tremendous earning possibilities.

WEEKLY BANK CLEARINGS

Weekly bank clearings as reported to the California Development Association by the several clearinghouse cities for the week ending Thursday, the 15th inst., showing increases and decreases as compared to the corresponding week last year follow:

City	1929	1928	Change
San Francisco	\$219,200,000	\$204,000,000	\$15,200,000 Increase
Los Angeles	208,840,000	200,871,000	7,969,000 Increase
Oakland	18,209,292	18,043,500	165,792 Increase
San Diego	8,783,007	8,320,320	462,687 Increase
Long Beach	6,781,589	6,335,247	446,342 Increase
San Jose	7,418,035	6,084,190	1,333,845 Increase
Sacramento	6,074,708	5,222,551	852,157 Increase
Pasadena	2,512,901	2,550,227	\$37,326 Decrease
Fresno	3,801,648	3,558,288	243,360 Increase
Modesto	2,662,500	2,725,000	\$62,500 Decrease
Stockton	2,474,900	2,454,414	20,486 Increase
Glendale	2,344,131	2,384,018	\$39,887 Decrease
Santa Monica Bay District	1,261,318	1,211,607	49,711 Increase
Bakersfield	222,271	222,271	0
Riverside	282,144	282,144	0
Merced	805,270	805,270	0
Petaluma	578,195	578,195	0
Santa Rosa	578,195	578,195	0
Whittier	578,195	578,195	0

*Not reported.

CLEARINGS, MONEY

Clearings yesterday were \$20,495,280.74, an increase of \$1,025,921.12 over corresponding day last year.

1929. 1928. Change.

Monday, Aug. 19, 1929. \$20,495,280.74. Tuesday, Aug. 19, 1928. \$19,469,359.72. Increase, \$1,025,921.12.

Wednesday, Aug. 20, 1929. \$21,200,000.00. Thursday, Aug. 20, 1928. \$20,400,000.00. Increase, \$800,000.00.

Friday, Aug. 21, 1929. \$22,000,000.00. Saturday, Aug. 21, 1928. \$21,000,000.00. Increase, \$1,000,000.00.

Sunday, Aug. 22, 1929. \$23,000,000.00. Monday, Aug. 22, 1928. \$22,000,000.00. Increase, \$1,000,000.00.

Tuesday, Aug. 23, 1929. \$24,000,000.00. Wednesday, Aug. 23, 1928. \$23,000,000.00. Increase, \$1,000,000.00.

Thursday, Aug. 24, 1929. \$25,000,000.00. Friday, Aug. 24, 1928. \$24,000,000.00. Increase, \$1,000,000.00.

Friday, Aug. 25, 1929. \$26,000,000.00. Saturday, Aug. 25, 1928. \$25,000,000.00. Increase, \$1,000,000.00.

Saturday, Aug. 26, 1929. \$27,000,000.00. Sunday, Aug. 26, 1928. \$26,000,000.00. Increase, \$1,000,000.00.

Sunday, Aug. 27, 1929. \$28,000,000.00. Monday, Aug. 27, 1928. \$27,000,000.00. Increase, \$1,000,000.00.

Tuesday, Aug. 28, 1929. \$29,000,000.00. Wednesday, Aug. 28, 1928. \$28,000,000.00

TURNER SET FOR FLIGHT TOMORROW

**Eighteen-hour Passenger
Schedule to New York
Will be Given Test**

Capt. Rocco Turner, of the United States Army, is set to make a flight from Los Angeles to New York in a biplane. The flight is expected to take about 18 hours.

COMMISSIONERS RAP CO-WORKER

**Playground Board Demands
Rittenhouse Resign**

**Member Inspired Newspaper
Canard, Says Resolution**

**Fee as Beach Concessionaire
Evaded, Charges Avar**

A demand for the resignation of Commissioner E. M. Rittenhouse from the Playground and Recreation Commission, on the ground that he has misappropriated the funds of the board and has evaded the payment of a fee as beach concessionaire, was made by the board yesterday.

The action followed the presentation by President Weaver of a resolution of censure for Rittenhouse for allegedly inspiring an editorial in a Los Angeles newspaper Friday attacking the other members of the board and lauding Rittenhouse as "a courageous battler for the people" in protection of the beaches for the public.

The resolution, which was adopted by a vote of 10 to 2, was introduced by President Weaver and seconded by Commissioner McCulloch.

The resolution charges that Rittenhouse has inspired an editorial in a Los Angeles newspaper Friday attacking the other members of the board and lauding Rittenhouse as "a courageous battler for the people" in protection of the beaches for the public.

The resolution also charges that Rittenhouse has evaded the payment of a fee as beach concessionaire, and that he has misappropriated the funds of the board.

The resolution was adopted by a vote of 10 to 2, and Rittenhouse was given 30 days to resign or be removed from the board.

Rittenhouse, who is a member of the board, has been a member of the board since 1927.

He is a member of the board, and he has been a member of the board since 1927.

He is a member of the board, and he has been a member of the board since 1927.

MARY EATON SOON TO MARRY

Declaration of Intention Entered Here

Millard Webb and His Actress Bride-to-Be

MARY ELIZABETH EATON, 28 years of age, motion picture actress, who lives at 912 Beverly Drive, yesterday declared her intention to wed Millard Webb, 34, a film director, who gave his address as the Roosevelt Hotel.

Miss Eaton said she will be married within the next two weeks. She was a star in "Glorifying the American Girl."

The declaration of intention was filed in the office of the city clerk.

RATE FIGHT FUND LOSES IN COUNCIL

**Ex-Mayor Cryer's Veto of
Untermeyer Hiring Plan
Upheld After Debate**

Council yesterday voted to concur in former Mayor Cryer's disapproval of expending \$25,000 to hire Samuel Untermeyer, New York lawyer, to appear for the city against the Los Angeles Railway Company before the United States Supreme Court when the rate case comes up in October.

Cryer's veto, which was exercised a short time before he left office, was brought up yesterday by Councilman Davis, as chairman of the Public Utilities Committee, with the recommendation that the veto be approved. Councilman Randall made a long and heated speech against the report and said the new administration of Mayor Porter and City Attorney Warner should have said in the hiring of the New Yorker.

Davis referred to Randall's effort as "a political speech for the benefit of the audience" and Councilman Lewis disposed of the whole Untermeyer scheme by saying it was a political speech for the benefit of the audience.

Randall denied that such were his motives and said he is tired of charges that speeches are being made in Council for political welfare.

SEPULVEDA BOULEVARD BID TAKEN

**Public Works Board Lets
Contract for \$536,929 to
J. K. Donovan & Son**

The contract for grading the nine-mile stretch of Sepulveda Boulevard between Wilshire and Ventura boulevards, including the construction of a 200-foot tunnel under Mulholland Highway, was awarded on a bid of \$536,929 to J. K. Donovan & Son yesterday by the Board of Public Works.

When Council authorized the project last week it was stipulated that proceedings be instituted at once to pave the boulevard with a fifty-four-foot roadway. This is expected to raise the cost above \$1,000,000. The paving is to be paid for by an assessment district, but the grading and tunnel will come from the city treasury.

The project, when complete, will create a thorough artery between the town of San Fernando and Long Beach, the present job being the last section to go in. The maximum grade of the road will be 4 1/2 per cent.

Pantages Expected to Battle For Delay of Criminal Trial on Girl-Attack Charge

DEFENSE COUP BELIEVED SEEN

Demurrer to Block Early Plea Indicated
Theater Employee Makes Damaging Admission

Tells of Putting Desk in Room After Affair

A demurrer to the charges that he attacked criminally 17-year-old Eunice Pringle probably will be filed in Superior Judge Aggeler's court next Thursday when Alexander Pantages, millionaire theater man, is scheduled to appear and enter plea, it was learned last night.

While no statements were forthcoming from Defense Attorneys Ollbert and Ford, it was learned from other sources that the demurrer probably will be filed by the defense as they battle for further time in which to prepare their case.

Pantages appeared in court yesterday morning for arraignment and asked for further time in which to enter plea. Judge Aggeler setting next Thursday at 10 a.m. Yesterday, however, Chief Deputy District Attorney Stewart declared that the state's case is complete and that he is ready and anxious to go to trial as soon as possible.

Close observers of the situation regard the time of trial as one of the most important factors in the case, and predict defense tactics are to delay it as long as possible. If the demurrer is allowed, the trial date is argued and several days must elapse, in the event the demurrer is denied, before a trial date is set.

BUILDING OF SKY DEPOT UNDER WAY

Four-Story Structure for Western Air Express to be Ready in December

Construction of a new \$10,000 passenger depot, the principal structure of a group planned at the Western Air Express terminal on Valley Boulevard, was begun yesterday, according to officials of the company.

Rising four stories above ground, the new structure will lend a touch of beauty to the airport. Recently the world's largest airplane hangar was constructed at the field. Yesterday found another hangar in the last stages of completion.

The new passenger depot will have all the conveniences found in the modern railroad terminal, according to A. M. Edelman and A. C. Zimmerman, associated architects, who designed the building.

A waiting room will occupy the first floor. The second floor will be set aside for administration offices. The third and fourth floors will be in the form of a tower.

The radio tower will be in the base of the tower. The chief dispatcher will occupy the glass-enclosed turret, and will direct the arrival and departure of ships.

To the rear of the passenger station, and connected to it will be a concourse which will provide for the simultaneous loading or unloading of five transport ships with individual wing spreads of 100 feet.

According to W. Y. Eaves of the Eaves Construction company, the depot is expected to be completed by December 15, next.

INHERITANCE LOST BY FILMS REGAINED

Jean Harlow

Jean Harlow

Grandpa Finds Hollywood Isn't Bad as Painted

Jean Harlow, Kansas City society girl, was willing to spurn an inheritance to try her luck in motion pictures but now she doesn't have to do so and is getting her fling at a picture career at the same time. Yesterday the girl disclosed that her grandfather has changed his mind about his will after a visit to Hollywood.

Intending on a film career, the girl came to Hollywood following her graduation from school. Her grandfather, she said, had heard about Hollywood so he came to the Coast to do a little checking.

It was pointed out I'm going to have my chance at a moving-picture career and my inheritance, too, said Harlow yesterday.

While she is working in pictures, however, her grandfather has discontinued her allowance. She has been signed by Paramount for a featured role in Clara Bow's forthcoming production.

CLARKE DENIES BRIBE PLOTTING

Ex-Court Clerk on Stand in Own Defense
Accused With Newport of Approaching Judge

Version of Conversation With Stafford Told

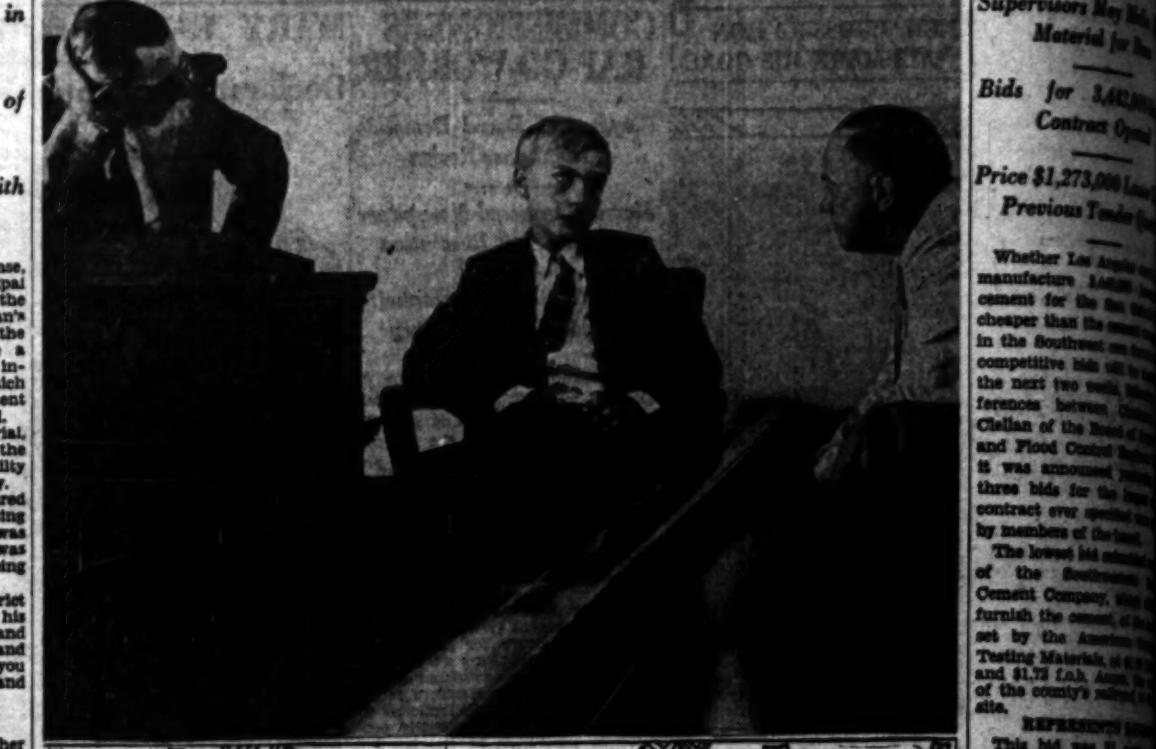

Testifying in his own defense, Robert D. Clarke, former Municipal Court clerk, yesterday told the jury in Superior Judge Doran's court, his side of the story of the charges of conspiring to bribe a Municipal Court judge, and to influence a public official, under which he and P. P. Newport, prominent realty developer, are being tried.

In the early stages of the trial, however, the court instructed the jury to return a verdict of not guilty of the first charge of conspiracy.

While testifying, Clarke declared that his only purpose in discussing the civil case in which Newport was concerned, with Judge Stafford was to prevent the jurist from being reversed in a higher court.

He also stated that the District Attorney approached him after his first appearance before the grand jury and asked him to go back and tell the whole story, and then you can go home to your wife and baby.

Auto Dealer's Son Exonerated In Patricide

WESTLAKE GETS DELAY FOR TRIAL

Attorney for Suspect in Torso Murder Case Busy in Another Court

Trial of Dr. Frank P. Westlake, 37-year-old retired physician charged with murder in connection with the death of Mrs. Laura B. Sutton, yesterday was continued to today by Judge Wood because counsel for Dr. Westlake is engaged in the trial of another case.

The arrest of Dr. Sutton on the murder charge followed an intensive investigation of the circumstances surrounding the disappearance last March of Mrs. Sutton, whose headless and limbless body was found April 4 in the Los Angeles River bed near Lynwood.

Identification of the torso was made through the discovery several weeks later of a skull in a spot near where the torso was located.

William T. Kendrick, Jr., attorney for Dr. Westlake, is engaged in the trial of a case in Judge Doran's court and it was said yesterday that the case against Dr. Westlake will be continued from day to day until the trial before Judge Doran is concluded.

HOWARD DEATH HELD JUSTIFIED

(Continued from First Page)

to the boy were, "We can get along very nicely without you."

Mrs. Howard told of rushing out of the room to get away from him and of pausing on the stairs to help the husband should he stumble and fall on the stairs in his condition. He caught her and began to beat her. It was then that the boy rushed to the top of the stairs, she did not see the gun. She heard the shots and her husband sank to the stairs.

"Richard! Richard! Oh, what have you done?" she cried.

YOUTH HELD AS SUSPECT IN THEFTS

Police Believe Him to be Perpetrator of Numerous Wilshire Burglaries

Suspected by police of being the elusive Wilshire daylight burglar, Joseph Daniels, 19 years of age, was arrested yesterday at his home, 2830 Sunset Boulevard, and held for investigation. He was booked technically on suspicion of burglary. The arrest was made by Detective Lieutenant Perry and Menner of the Wilshire division as a result of a description furnished by a number of his asserted victims.

Under grilling by the detectives Daniels, according to the report, confessed to having committed about fifteen burglaries in Wilshire district apartment-houses during the past five or six months. No estimate has been made as yet of the total value of plunder allegedly obtained by Daniels, but the officers say they hope to locate his hiding place within a few days.

According to the detectives Daniels recently was paroled from Los Angeles Reformatory, where he was serving a sentence for burglary.

WIFE'S MURDER TRIAL

In this event, an early trial date will conflict with the trial of Mrs. Pantages, charged with murder of Joe Rokumoto, killed in a collision with Mrs. Pantages' automobile, scheduled to begin in Judge Hardy's court September 3. Attorney Ollbert is representing both the theater man and his wife and thus can ask for a later trial date for the Pringle case. An attempt to have the trial of Mrs. Pantages postponed until after that of her husband is expected to be resisted strenuously by the defense.

While the trial date proceedings were the center of interest in court, other happenings in the case were as follows:

(1) A second girl, in a lengthy deposition, charges Pantages with attempting to force his attentions on her.

(2) Roy Keene, assistant manager of the Pantages Theater, admitted that his employer had instructed him after the asserted attack on Miss Pringle to place a desk in the little room where the asserted attack took place to make it appear that the boy was in the office. It was announced by the District Attorney's office.

(3) All of Pantages' employees were questioned separately, with the hope of determining the identity of the man described by witnesses as the one who rushed into the room and helped the Pringle girl escape. The man's clothes lying just after the Pringle girl had fled streaming.

NEW COURT PERSONNEL ANNOUNCED

McLucas, Bishop and Shaw Selected as Judges for Appellate Department

Official assignment of Superior Judges McLucas, Bishop and Shaw as the judges in the recently formed Appellate Department of the Superior Court of Los Angeles county, was received here yesterday. The document, assigning the judges to the new court for a period of two years, beginning July 1, last, was signed by William H. Wiese, chief justice of the Supreme Court of California, also chairman of the Judicial Council.

The court will conduct its first session on September 3, next.

Word was received yesterday that Judge McLucas has been confirmed to his home, 212 West Park avenue, Glendale, with an attack of influenza, is convalescing and hopes to be ready to take up his duties in the Appellate Department of the court when it opens in September.

The thirteenth floor of the new City Hall Building, embracing three courtrooms, Nos. 36, 37 and 38, is being prepared for the new department.

New Planes to Be Flown Here

Four new airplanes will be down to California from the Travel Air factory at Wichita, Kan., by members of an air party which will take off at dawn today for Wichita and the National Air Races at Cleveland, O., with H. C. Lippert, Southern California Travel Air distributor.

Mr. and Mrs. W. E. Thomas will take delivery at Wichita on a sport plane and continue in it to the air races. The Travel Air local Travel Air headquarters, which will pick up a similar plane on the way back from Cleveland, while Frank Sullivan, another local man, and G. C. Gaudin of Tulsa, each will purchase and return in a new four-place cabin ship.

All the planes will be powered with Whirlingwind engines represented in Southern California by Thomas.

Flying his own Travel Air biplane, Thomas E. Morgan, general manager of Pickwick Airways, was scheduled to hop off early today from Grand Central Air Terminal for Cleveland to attend the National Air Races meet. He will be accompanied by Mrs. Morgan.

Wife Charges Spouse Costly; Gets Divorce

After testifying that her husband struck her, tossed her in a cruel manner and spent \$35,000 of her money during the eight years of their married life, Mrs. Helen Gilliland yesterday was granted a divorce from John D. Gilliland, motion picture producer, by Superior Judge Wood.

The wife also was given the custody of the couple's minor child, John D. Gilliland, Jr., 6 years of age, and \$118 a week for his support.

Mrs. Gilliland testified that at the time she and Gilliland were married on September 8, 1921 she had two small children. Her husband, she said, largely in a gambler and riotous living. Some of the money, however, she declared, he lost in a business venture.

Gilliland, according to his wife's complaint, is employed as a movie-tale projectionist at the Fox studio.

Complaints List Three Cafes as Nuisances

Charges that the owners of three cafes in Southern California are maintaining nuisances were made in complaints filed yesterday in United States District Court. The complaints, which may lead to other action, are directed against the Italian Cafe, on South Western avenue, Los Angeles; the Old Trails dining, needles, and the Avia Trains at Avila.

The actions filed seek to prevent further operation of the cafes under the conditions that are said to exist.

Stage Singer Divorced from Musical Mate

Irene Marshall, stage singer, yesterday was granted a divorce from Vanell Marshall, musician, by Superior Judge Tappan on the grounds of cruelty. Besides the temporary decree of divorce Mrs. Marshall was granted the custody of Barbara Marshall, 10 months of age. A property settlement was approved by the court.

Mrs. Marshall accused her husband of associating with other women and calling her names. Once, she declared, while she was singing before an audience in the Liberty Theater at San Diego, her husband called her vile names. Later, when she entered her dressing-room, he tore her clothes off, she said.

The couple married at San Diego on November 1, 1926, and separated on March 2, last, according to the complaint.

MALONE ASKED TO QUIT OFFICE

(Continued from First Page)

Commissioner, and has prevented its efficient operation.

FORMER AIDES OF FITTS LOSE FILE

The Board of Supervisors yesterday refused the petition of three former deputies of Dist. Atty. Fitts on appeal from the decision of the County Civil Service Commission, which upheld the District Attorney's order dismissing them from the office.

The three deputies, Frank F. By, William B. Heinicke and Edgar T. Fee, have indicated they will appeal their dismissal to Superior Court.

Attorney Thomas H. Hark, one of the dismissed men, has not joined the other ex-deputies in their demands, he being engaged in a prominent enterprise in the city.

The supervisors' decision came after County Counsel Mattson had delivered an opinion that the four deputies could not legally appeal to the Board of Supervisors on the decision of the Civil Service Commission.

Coroner's Jury Blames Autoist

Further investigation into the death of Julian Atillano, 31 years of age, of 701 Outtersen street, Santa Barbara, probably will be undertaken by District Attorney's investigators today, following a verdict returned by a coroner's jury yesterday which held John V. Boyd of 1141 West Thirtieth street responsible for the death.

Atillano received fatal injuries in an automobile accident near Bassett's bridge on Valley Boulevard on the 14th inst. The coroner's jury yesterday held Boyd responsible for the accident, stating that he was driving in a negligent manner when his automobile side-swiped the one in which Atillano was riding.

After the accident, Boyd disappeared and Deputy Sheriffs charged that E. O. Shattuck, an attorney, posed as the driver of Boyd's car and the officers prepared to take him to jail.

Added Privacy Will Be Assured for Councilmen

Councilmen assured themselves of additional privacy yesterday by approving a finance committee report calling for the expenditure of \$6002 to fix up extra rooms on the Spring street level of the Council suite, now being used as committee rooms.

The appropriation calls for \$6004 for the partitions and woodwork and \$618 for carpets. Under the new arrangement, every other office will be occupied by two Councilman secretaries, while the adjoining rooms each will house a Councilman in session. In order to make room, some of the Councilmen will be moved down from the mezzanine floor to the Spring street floor.

Rites Yesterday for R. B. Morris

The last rites for Robinson B. Morris, broker, were conducted yesterday at 2 p.m. at Grace Chapel, Inglewood Park Cemetery. Mr. Morris died last Saturday after an illness of several months. He resided at 155 South Orange Drive.

Mr. Morris was well known throughout Southern California. He was a member of the Jonathan Club, the Deauville Beach Club, the Knights of Pythias, Los Angeles No. 2, the Elks Club, the Modern Woodmen. During the past several years Mr. and Mrs. Morris traveled almost continually, including a trip around the world. Mrs. Morris, who survives him, is the daughter of the late Sterling B. Hughes, wealthy Los Angeles pioneer. Mr. Morris lived in Los Angeles for the past thirty years. He was married, his widow, Mrs. Morris, and three sons, Mrs. Lillie Douglas and Ida and Minnie Morris.

STUDENT MANAGERS AT UNIVERSITY NAMED

At a recent meeting of the board of student managers of the University of Southern California, president-elect by Arnold Eddy, the following Los Angeles students were appointed to managerial positions for the ensuing college year: Randolph Ritchey, varsity debate manager; Karl Brenner, band manager; Edwin Bishop and Gilbert Morse, assistant band managers; Jack Rander, junior football manager; Tom Oudemulen and Joe Clarke, intramural basketball managers; Jack Muskhin, Edward Clarke and Mac Rouse, intramural baseball managers; and Glenn Johnson, junior manager of the varsity tennis team.

EMOTIONS TO BE TOPIC OF NEW U.S.C. COURSE

Announcement is made by the University of Southern California that a new psychology course, "Emotions in Modern Life," will begin with the opening of the fall semester. A new faculty member, Dr. William M. Marston, formerly in charge of the psychology department at the University of California, and now director of public service for the National Pictures Corporation, is to have charge.

Prof. Marston's course will analyze in a practical way the emotional influences of modern life upon the individual. Different concepts of elementary emotions will be discussed, including those of the instinctivists, the psychologists, the physiologists and the recent findings of Watson and Marston.

WADLEIGH FOR WARDEN'S POST

(Continued from First Page)

and announced himself as the next post warden.

Edward L. Britt, Mayor Porter's campaign manager in the Harbor District, apparently had his eye on the job, according to his application on file. He presented a formal application with a petition of 300 signatures of Harbor District residents urging his appointment.

Wadleigh did not file a formal application for the job.

A second of the three formal applications was that of Everett J. Morgan, chairman of Division No. 503 of the Order of Railroad Conductors, who is accredited with the statement that he swung \$4,000 votes for Porter.

The third application was filed by Edward J. Keenan of Wilmington. He was strongly recommended for the post by the Wilmington Chamber of Commerce.

The port warden's office directs the harbor water-front guards, seen to it that shippers and steamship companies abide by Harbor Department rules and regulations, directs the cleaning up of the harbor frontage and waters and has numerous other duties, many of which demand a practical knowledge of shipping affairs.

FILM MERGER RUMOR DENIED

(Continued from First Page)

There have refused to comment. Many in close touch with the motion-picture industry and banking circles declare such a deal is probable.

Yesterday Lasky declined to amplify his statement or to discuss Jack Warner's statement concerning the reported deal.

Such a merger would unite two of the largest producing companies with holdings totaling \$400,000,000, and with theater chains comprising a total of 2400 houses. Warner Brothers also controls the First National studios in Burbank.

Judge Heeds Autoist's Tale of Sore Arm

A man with a sore arm apparently has the sympathy of Municipal Judge Swann.

When W. E. Lawrence, 23 years of age, excused himself for his asserted failure to make an arm signal while driving on Sunset Boulevard on the 4th inst., the judge suspended a fine of \$5.

"But," declared the judge in substance, "a man with a sore arm may not be capable of driving an automobile."

"Driver's license suspended for fifteen days," ordered the court.

PAN'S SHIPS WILL BE FETED

Days of Gayety Await Cadets on Arrival
Banquet Luncheon will be Leading Event
Arrive Friday

The two battle cruisers of the Imperial Japanese training fleet, the *Yamato* and the *Shikuma*, are expected to arrive at the Los Angeles harbor at 8 a.m. Friday there to begin a five-day period of acquaintance for the officers and cadets as they enter the harbor, but of the events planned during the stay, the only definite announcement is a luncheon at the Japanese Consulate on the 24th inst., at which the Japanese Consul T. Takahashi and Fleet Admiral K. Nogi will be present. The Japanese Consulate is located at 1100 Broadway.

The guests take their meals at the table of Gov. Young will be a telegram of greeting to the Japanese fleet, and a toast to the Japanese fleet will be given by the Consul.

The Japanese Consulate is located at 1100 Broadway.

COUNTY PLANT

Supervisors May Make Material for Bids for \$42,000 Contract Operate
Price \$1,273,000 Less Previous Tenders

Whether Los Angeles will manufacture a 100-horsepower motor for the San Joaquin River project, or whether it will purchase one from the outside, is a matter that the Board of Supervisors will decide today. The board will make material for bids for a contract to operate the project, estimated at \$42,000. The price of \$1,273,000 less previous tenders.

The board will also decide whether it will purchase a 100-horsepower motor for the project, or whether it will manufacture one.

QUESTIONS AT LUNCH

As the ships reach port, Admiral Nomura and his party will be entertained at a luncheon at the Japanese Consulate. The Consul will be present, and the guests will be the Japanese Consulate staff.

The Japanese Consulate is located at 1100 Broadway.

CRASH SUIT UNDER WAY

Soos Asks \$16,625 for Injuries Received in Collision
Asserted Permanent Injuries in Collision

James Soos, 31 years of age, of 1141 West Thirtieth street, is suing the City of Los Angeles for \$16,625 for injuries received in a collision with a city-owned automobile on the 14th inst. Soos asserts permanent injuries in the collision.

The City of Los Angeles is the defendant in the suit.

THE LANCET

(Continued from First Page)

It was said that the plaintiff's attorney, J. H. Ollbert, was the one who was responsible for the collision.

The City of Los Angeles is the defendant in the suit.

Callum Relates Bank Peculation at Arraignment

Called with grand theft of \$6000, Callum, former assistant manager of the Pacific National Bank, yesterday morning was arraigned on charges of bank peculation. Callum was held to answer in Municipal Court.

Callum was arrested several days ago, and was held in custody until yesterday morning.

Attack Charges

COUNTY CEMENT PLANT PLANNED

Supervisors May Make Own Material for Dam

Bids for \$3,442,000 Contract Opened

Price \$1,273,000 Lower Than Previous Tender Quoted

Whether Los Angeles county will build a cement plant for the San Gabriel dam, a subject which has been discussed for some time, was brought up at a meeting of the board of supervisors last night. The board, which met in the evening, was held in the boardroom of the county administration building. The subject was brought up by Supervisor J. H. Brown, who said that the county had been discussing the possibility of building a cement plant for the dam for some time. He said that the county had been discussing the possibility of building a cement plant for the dam for some time. BABY OF ACTOR FACES CAMERA

And She Doesn't Seem to Mind One Bit

John Mack Brown and His Daughter

JANE HARRIETT BROWN, infant daughter of John Mack Brown, former star of the gridiron and now a player in motion pictures, had her first taste of a camera yesterday. With her father, who is a Metro-Goldwyn-Mayer player, Jane Harriett had her first picture taken. Brown will not make any forecasts as to what career has been mapped out for her. In any event, she did not seem to mind the camera.

MECCA OF STUDENTS HERE

All Colleges, States and Nations Blend in Throng Enrolled at U.S.C. Summer School

Report on the summer session of the University of Southern California, which closes on the 31st inst., reveals that Los Angeles has been a mecca for thousands of knowledge-seekers this summer. According to Dean L. B. Rogers of the Trojan summer school, representatives of nearly 400 institutions of learning attended the twenty-third annual summer session of U.S.C.

Eastern, northern, southern and central states were represented locally this summer by students at Southern California from, or formerly from Yale, Harvard, Princeton, Notre Dame, Stanford, California, Boston University, Washington and Lee, Western Reserve, Cornell, Drake, DePaul, Ohio State and the Universities of Iowa, Indiana, Arizona, Colorado, Chicago, Idaho, Illinois, Kentucky, Michigan, Missouri, Mississippi, Nebraska, Oklahoma, Oregon, Pennsylvania, Pittsburgh, South Dakota, Tennessee, Vermont, Washington, Wisconsin, Wyoming, Minnesota, New Mexico and Virginia.

Among the California cities represented by the students from the State are Sacramento, San Francisco, Oakland, Berkeley, Palo Alto, Stockton, San Jose, Fresno, Santa Barbara, Santa Maria, Santa Clara, Riverside, San Bernardino, Redlands, Pomona, Glendale, Hollywood, Los Angeles, Long Beach, Compton, La Verne, Fullerton, Pasadena, Modesto, Santa Ana, Whittier and others.

Woman Loses Suit Growing Out of Arrest

Josephine Babcock lost her \$50,000 damage suit against Theodore R. Walker when Superior Judge Needham yesterday handed down a ruling for the defendant, following a trial of the action lasting several days.

Brief Marriage Earns No Balm

John Albertson, 70 years of age, had not been married long enough to have to pay alimony to Mrs. Alhena W. Albertson, twenty years younger, Superior Judge Schaefer decided yesterday.

EXPERT THIEF

ROBS THEATRE

Safe Opened by Touch and \$12,000 Taken

Official Locked Strong Box Saturday Night

Fingerprints of Burglar Carefully Removed

A type of safe robber, heretofore believed to exist only in story books, stepped out of the realm of fiction and realistically robbed the United Artists Theater, 891 South Broadway, of more than \$12,000 sometime between Saturday night and Monday morning. The robber worked the intricate safe combination, removed the money and after closing the heavy safe door evidently wiped away all traces of his fingerprints with a towel.

The combination of the safe is composed of six movements and it was locked Saturday night by Horton Kahn, secretary of the theater, in the presence of Thomas Glimmerling, another employee. When Clayton Long, treasurer, went to the safe yesterday morning he found the door closed but unlocked.

He called the police, who made an investigation for fingerprints. The detective also examined the combination of the lock and learned that only a skilled robber could have manipulated the knobs and dials through a highly developed sense of touch the moment the tumblers fell into their proper sockets. Hours would have been required to have detected the correct six digits out of possible thousands.

POPULARITY OF BIG PINES ON INCREASE

Fred Wadsworth Speaks to City Club on Camp's Gain in Public Favor

The fact that 150,824 pleasure seekers visited Big Pine recreation camp between January 1 and July 30 of this year, as against 121,279 visitors for the same months last year, an increase of 29,545, is evidence of the growing appreciation of a people of this county have for their playground, said Fred Wadsworth, superintendent of the Department of Recreation of Los Angeles, in an address yesterday at the City Club.

"Big Pines, with its 610 acres of county owned land and its 5000 acres of government forest reserve, fast is becoming one of the best-known recreation spots in the United States," said Mr. Wadsworth. Discussing the beach, the speaker congratulated the people for their co-operation with his department in keeping the beaches clean and said that this fact makes for the ever-increasing popularity of the beaches.

Jay Thomas, in Trouble, Cables for Family Aid

Jay Thomas, automobile mechanic, is in serious trouble in Barranquilla, Colombia, according to a cablegram from there asking The Times to obtain his family's cable address. The message does not specify the nature of the alleged trouble, but in appealing to The Times to broadcast for the address sought, declares it is "officially important." The cablegram is signed Corrox, which may be the name of an individual or a code signature.

Norma Terris to Wed Today

Norma Terris, stage and screen actress, and Dr. Jerome Wagner of New York, who got her consent over long-distance telephone, will be married today at 5 p.m. at the home of Mr. and Mrs. Charles Mack in Beverly Hills. The ceremony will be performed by Superior Judge Crawford.

It was announced by the couple yesterday that but a few friends were in attendance and that a wedding dinner will be served at the ceremony. Those invited include Mr. and Mrs. Edward Dowling, Winfield Sheehan, Mrs. Sol M. Wurtzel, Mrs. Richard Henderson of New York and Mr. and Mrs. William Kerford of Philadelphia. The bride-to-be came to talking pictures from the stage and is under contract to Fox Films.

During the frolic and dance to be given by the Canadian Society of Southern California at the Hollywood Roof Ballroom, 1549 Vine street, tomorrow evening, Miss Lily Wright, Miss Jerry Jones, Miss Madeline Stockman and Miss Doris Hadlett, winners of the personality contest at the picnic and reunion held by the society last Sunday at Ocean Park, representing the provinces of Ontario, Manitoba, British Columbia and British Isles, will be introduced. Larry Walden and his town club band will play.

Pilots Land Plane in High Sierras, 8500 Feet Above Sea Level

The Highest Landing Field a Pilot Has Ever Attempted to "Set Down" on is Probably Templeman Meadow in the High Sierras where Bob Hancock and George Russell landed a few days ago during an aerial survey. It is necessary to pack in to the spot and the trip generally takes several days, but the airmen made it in as many hours. Their plane is pictured at left above in the meadow; at the right is an air picture of the Sierras a short distance from the meadows. (P. & A. photos.)

One of the Most Magnificent Spectacles in the world is the Grand Canyon of the Colorado. Every year an increasing number of tourists are visiting the spot. This photo was taken at one of the most colorful points in the great gorge. (A. P. photo.)

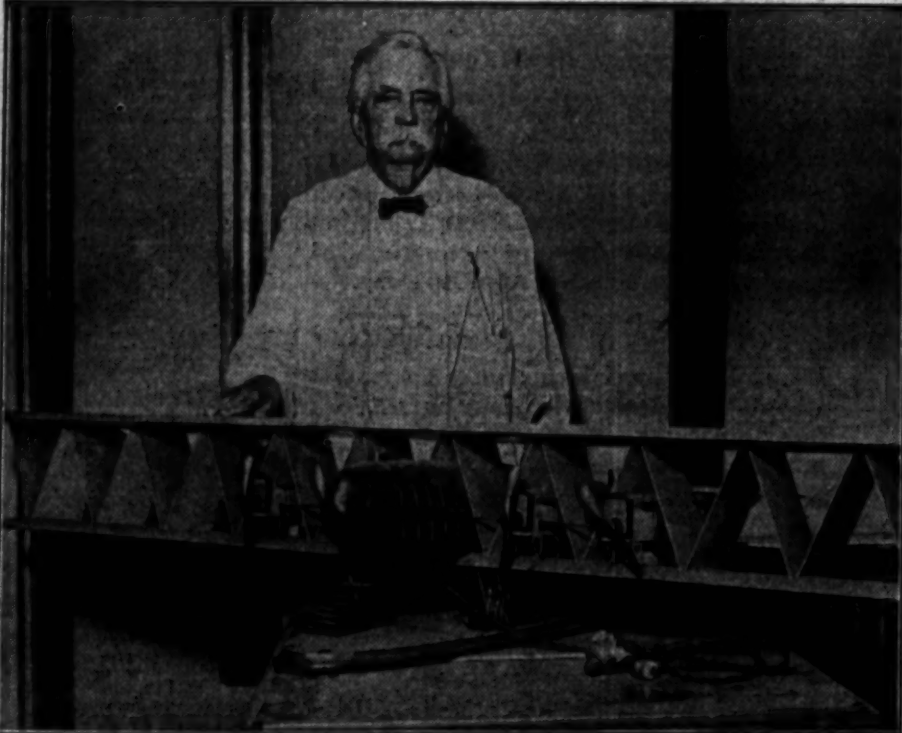

The Death of Her Adventurer Husband has not cooled the ardor of Mrs. Carl Akely for exploration. She recently left on an expedition to Darkest Africa to study pigmy tribes. The expedition will penetrate remote spots of the continent. (A. P. photo.)

Food is Plentiful and Wild Life Abundant in Paradise Valley of Rainier National Park. As in Yellowstone, the bears have become so tame that they invade human habitations. This bear is begging tidbits at a ranger station. (A. P. photo.)

The Man Power of Russia is Not Restricted Exclusively to Male Population, the women of the soviet claiming the right to bear arms. Here is a regiment of Russian woman, trained in the ways of war, ready to take up arms against China. The Russian woman peasant is as stalwart as her helpmate, as a general rule. (P. & A. photo.)

An American-Built Plane Which Will Carry 125 Passengers Has Been Designed by T. L. Eggleston, 80-year-old inventor of Enid, Okla. The plane, which has been declared practical, has a wing span of 140 feet and carries eight engines. It embodies a new theory in wing support. The inventor and his model are shown above. (P. & A. photo.)

The Expenditures of the United States during the coming year will be supervised by James C. Ropp, Chicago banker, appointed a few days ago by the President as Director of the Budget, successor to Brig.-Gen. Lord. (P. & A. photo.)

HIGH LIGHTS OF HISTORY 1424

MARCH 26, 1918, WHEN THE GREAT GERMAN DRIVE TOWARD AMIENS WAS SWEEPING EVERYTHING BEFORE IT, LLOYD GEORGE, THE BRITISH PRIME MINISTER, ADDRESSED THE FOLLOWING APPEAL TO THE AMERICAN PEOPLE.

"WE ARE AT THE CRISIS OF THE WAR. ATTACKED BY AN IMMENSE SUPERIORITY OF GERMAN TROOPS, OUR ARMY (THE BRITISH) HAS BEEN FORCED TO RETIRE. ... THIS BATTLE, THE GREATEST AND MOST MOMENTOUS IN THE HISTORY OF THE WORLD, IS ONLY JUST BEGINNING. ... IT IS IMPOSSIBLE TO EXAGGERATE THE IMPORTANCE OF GETTING AMERICAN REINFORCEMENTS ACROSS THE ATLANTIC IN THE SHORTEST POSSIBLE SPACE OF TIME."

AMERICA HAD THE MEN, BUT THERE WAS STILL A SHORTAGE OF SHIPS. THE SHIPPING BOARD TRIED TO MEET THE EMERGENCY BY PRESSING COAST LINE AND GREAT LAKES STEAMERS INTO SERVICE AS TRANSPORTS.

SINCE, AT THE MOMENT, SOLDIERS WERE MORE VITAL THAN SUPPLIES, GREAT BRITAIN PLACED SOME OF HER LARGEST MERCHANT MEN AT THE DISPOSAL OF THE UNITED STATES FOR TRANSPORTING TROOPS.

ON MARCH 23, 1918, AMERICAN TROOPS WERE CARRIED BY IT TO THE FRONT.

The Story of the World War 1914—Appeal for American Aid.

FAVORITES SMASH RIVALS IN WOMEN'S TENNIS

BULLDOG CAPTURES GO
Helen Jacobs, 19-year-old, defeated Helen Wills in the first round of the national women's tennis tournament today at Forest Hills, N. Y. Jacobs won in straight sets, 6-1, 6-2, 6-0.

A Perfect Baby
This 12-month-old baby was declared physically and mentally perfect. He's the son of a laborer. (See photo.)

MORTENSON TO REPORT
Rumors circulating to the effect that Jess Mortenson, captain of the 1929 University of Southern California track team and letterman on last year's championship football eleven, would not report to Coach Howard Jones for football this fall are entirely erroneous, according to the Trojan great all-round athlete. Mortenson stated yesterday that he had no intention of forsaking football this fall despite the fact that it will mean he will have to be in training for an entire year as he is a member of the S.C. basketball quintet as well as a star javelin thrower on the track squad.

HUDKINS SIGNS FOR ANDERSON
Cock Middleweights Agree to Olympic Date

After several days of wrangling over terms and weights, managers of Ace Hudkins and Joe Anderson, the Covington (Ky.) middleweight who defeated the Wildcat at the Olympic nearly a year ago, yesterday agreed to a rematch, September 10, next.

Anderson won the last match handily, one of two defeats Hudkins has suffered since he became a middleweight. The other was at the hands of Mickey Walker, the champion, and that was a disputed verdict.

Both Hudkins and Anderson have agreed to weigh 160 pounds—the championship weight for the division.

There was a turn-away crowd for their last match, which was held last October.

FAMOUS FIGURES IN THE WORLD OF SPORTS

Dorothy Bundy, 13-year-old daughter of May Sutton Bundy, former national singles champion, is being groomed by her mother to follow in her footsteps. The Associated Press photo of Dorothy and her mother was taken at the Westchester Country Club, Rye, N. Y. Laddie Sanford, noted polo player, returned last week to New York from a trip abroad on the S.S. Aquitania. He played at Midwick last winter. The photo of Amos Alonzo Stagg shows the grand old man of Chicago University celebrating his sixty-seventh birthday with a round on the tennis courts. Next month will mark the thirty-eighth anniversary of his start with Chicago as a football coach. Sanford and Stagg pictures by P. A. A.

JONES AND MAHAN CLASH

Negro Rules Slight Favorite Over Dummy for Tonight's Go in Olympic Ring

BY KAY OWE
Gorilla Jones rules a 10-to-8 favorite over Dummy Mahan, Arizona Mexican mule, for their ten-round bout at the Olympic tonight.

The match brings together the two outstanding 167-pounders in the country. The winner may be signed tomorrow to box Jackie Fields.

San Francisco through Anita Hoffman is bidding against Jack Doyle for the bout. Fields would likely ask for an overweight contest either place since it would be his first at a start since he beat Joe Dundee.

Fields, a n d h i s manager, Gilm Rooney, will see tonight's affair. Heavy fireworks are expected.

Both Mahan and Jones have been built up on knockouts. Jones gained national prominence by stopping Al Melio, the Boston man who drew with Ace Hudkins.

Jones boxes either as welter or middle. He weighed only 146 pounds yesterday, according to his manager, Guy Welch. The prescribed weight is 148—each boxer having agreed to make that or under.

OAKLAND HERE FOR CONTESTS

Stars Battle Acorns at Wrigley Field; Seraphs Visit Seattle

Great Oaks from Little acorns grow, but the Oaks of Oakland are taking their own sweet time about blossoming out in the second half of the Coast League pennant race.

To date they pushed up to about sixth place in the loop standing, but they hope to do better during the week, when they encounter the leading Stars in this week's offering at Wrigley Field.

Trailing, 4-1, the Oaks rallied to take both ends of a double-header from Sacramento Sunday, and promise a lot of healthy argument to Oscar Vitt's ambitious athletes.

The Stars are just a game and a half out of first place, and are likely to pick up some ground while the league-leading Seraphs are tackling Tom Turner's surprising Portland Ducks.

Other arguments include the Angel stand at Seattle, which opens late this afternoon, and a Sacramento-Mission embroglio at San Francisco that ought to bring the Killifer hirelings closer to the top.

Vitt has Weiss, Stollenbach, Johns and Kinney working in the dugout.

ALEXANDER SENT HOME FOR BREAKING RULES

ST. LOUIS, Aug. 19. (P)—Grover Cleveland Alexander, veteran St. Louis pitcher, has been sent home from New York for breaking training and arrival here.

President Sam Breadon announced today, "I feel very badly about this matter." Breadon said, but it is a disciplinary matter and is entirely up to the manager of the team.

Alexander asked permission to go fishing in Philadelphia recently and this was granted. He appeared to be out of condition when he returned and was warned by Manager Bill McKechnie that if he broke training again he would be sent home.

Last night McKechnie apparently discovered that Alexander had not obeyed his orders and the shipment followed. McKechnie said he was through with soft treatment of offending players, as he had found leniency was not getting results.

Alexander was a strong factor in winning the pennant for the Cardinals in 1926 and 1928 and his failure to hold his own this year was one of the reasons for the poor showing of the club.

STIRLING VICTORIOUS IN SEKYRA BATTLE

KANSAS CITY, Aug. 19. (P)—W. L. (Young) Stirling, Macon, Ga., heavyweight, won the newspaper decision over Joe Sekyra, Dayton (O.) Bohemian, in a ten-round bout here tonight.

"DOBO" FAILURE AS INTERVIEWEE

Youngest of Bundys Fails to Impress With Conversation; Startles Tennis Fans With Performances On Eastern Courts; Thinks Paris "Awful"

BY LORENA A. HICKOK
Associated Press Staff Writer
NEW YORK, Aug. 19. (P)—Her family call her "Dobo," for she is after all just a little girl not yet in high school.

But about the tennis courts, both here and abroad, she is already quite well known as "Little Bundy."

Every day these next two weeks she'll be up in the stands at Forest Hills, hands clasped about her sturdy bronzed knees—studying every move made by the celebrities, including her mother, in the national championship tournament.

The feminine hope of the clan of Sutton and Bundy is 13-year-old Dorothy Bundy of Santa Monica, Cal., and the Suttons and Bundys are to tennis just about what the Barrymores are to the stage.

First of all, there's Dorothy's mother, May Sutton Bundy, twice Wimbledon champion and once national champion some twenty-five years ago. She's been coming fast these last two seasons largely to give "Little Bundy" a chance to see some Atlantic seaboard tennis, and last year—merely incidentally—she won the eastern turf court championship at Rye, N. Y. And that's the feminine sensation of the year.

Also, Dorothy is the daughter of Tom Bundy, once upon a time national doubles champion with "Red Mac" MacLoughlin. She's a niece of two other Sutton sisters who in their day were almost as good as her mother, and she's a first cousin of Johnny Doe.

Dorothy is a fine looking youngster, gloriously healthy, sturdy as a lion cub. She has hair the color of strained honey, and her face, legs and arms are tanned a beautiful golden brown. And she is one of those funny, rather stern little girls—direct, matter of fact, independent.

When her mother was eliminated at Wimbledon, so the story goes, somebody said consolingly: "Too bad, Dorothy, too bad!" To which "Little Bundy" is said to have replied stoically:

SEEDED ACES SCORE EASILY

Helen Wills Conquers Foe in Eighteen Minutes

All Foreign Stars Except English Eliminated

Two Los Angeles Players Enter Second Round

BY TED VOS URGH
FOREST HILLS (N. Y.) Aug. 19. (P)—Helen Jacobs took nearly an hour, Betty Nuthall half an hour and a R. G. Queen Helen Wills only eighteen minutes to win their first-round matches in the national women's tennis tournament, which opened today at the famous West Side Stadium.

Miss Jacobs had a strenuous battle before she finally eliminated Penelope Anderson of Richmond, Va., by scores of 6-3, 6-4.

"Bouncing Betty," England's aspirant for all the honors now held by Helen Wills, dallied somewhat lightly with Cecilia Riegel of Philadelphia before she finally took the match at 6-2, 6-2.

TILDEN VICTOR IN COURT PLAY

Gains Lap on Field With Decisive Victory

NEWPORT (R. I.) Aug. 19. (P)—Big Bill Tilden, American premier tennis player, gained a bracket on the rest of the field in the Newport Casino invitation tournament here today when he defeated B. Gilpin, a former Pennsylvania tennis captain, 6-3, 6-2, in the third round match.

Wilmer Allison gained his second-round victory at the expense of Donald Cram of Nashville, Tenn., by 6-4, 6-4.

Wilmer Allison gained his second-round victory at the expense of Donald Cram of Nashville, Tenn., by 6-4, 6-4.

Arthur Wright, former Yale tennis captain, knocked Gilbert Nunn of Toronto, named third on the list

(Continued on Page 10, Column 4)

EASY VICTORY

It was in no such frivolous mood that the champion took the court. Stringing hard on every shot, making the most of her powerful service and taking the net about once in every game, Miss Wills stormed through the puny defenses of Katherine Lamare of Bessemer, R. I., to the ringing tune of 6-0, 6-0.

Playing with the skill and power that has made her undisputed woman champion of the world, there was little wonder that Queen Helen set something of a tennis record by winding up a match in just eighteen minutes with less of but 15 points. The first set lasted ten minutes and the second eight. Only two games were forced to deuce, one in each set, and in the first the sum of the New Jersey player's points was 8; in the second only 7.

Not one of these rallies was an earned point, all fifteen resulting from nets or oaks by Miss Wills combined with a single double fault. Three of the games were won at love and six with less of but one point. Another player to pulverize the

Edmonds, Gaines Lead Qualifiers in Spreckels Cup

EVEN WITH PAR
IN FIRST LAPSecond Round Scheduled
for Play TodayBrilliant Field Battles for
Old TrophyLeaders Shoot 72's for
Initial Effort

CORONADO (Cal.) Aug. 19.—Ward Edmonds, a San Diego native son who has brought much glory to his home city, both as a member of the Stanford University track team and as a golfer, today divided first-day's qualifying honors in the A. B. Spreckels trophy tournament with Jack Gaines, Alhambra, and Country Club star, both turning in cards of 72, matching par at Coronado.

The two Edmonds brothers, along with "Speed" Martin, former big-league ball player, are upholding home-town honors in this classic of summer golf. Ward Edmonds, who is generally regarded as a better player than Ward, today shot a creditable 75 to the Gall Stockton of San Bernardino, and to lead the Southern California amateur champion, Gilman Dunlop of Glend, by a single stroke. Dunlop was out in 37 but slipped two strokes over par, coming home, to shoot a 74.

Texas and Arizona both are challenging Southern California in this tournament, and Oklahoma is represented by L. Van Zandt, a three-handicap player, who today shot a 77, and who is on the way to Pebble Beach for the national amateur championship.

E. D. Harrison of San Angelo, Tex., today scored a brilliant 74, to rest in a most favorable position in the qualifying play. Bobby Goldwater of Phoenix scored well with a 77. He slipped five strokes over par going out, but came home in even figures.

Cards for the two leaders follow:

Edmonds	Gaines	Edmonds	Gaines

ERNIE HOOD FACES
TOUGH FISTIC DATE

Little Ernie Hood, Pasadena's prize fighter, is in for a mighty tough evening Thursday night at the Pasadena Arena. At least, that is the opinion of those who saw his coming opponent, Miguel Mike Dundee, Brooklyn fighter, in a workout at the arena last night.

Dundee is fast and clever and seems to hit well. He should give Hood the hardest fight the Pasadena prize has had since the late Newby Brown. Dundee brings a great record with him from the east, where he fought Ray Schwartz, Frankie Cannata, Johnny Wagon and a lot of other top-notchers. Thursday night's bout will be Dundee's Coast debut.

RABBIT PUNCHES
PAUL LOWRY

TENNIS IN THE PICTURE

FOOTBALL and Bobby Jones aren't the only things headed our way. Mr. W. M. Henry, who I believe still presides as chief of the Southern California Tennis Association, calls attention to the annual Pacific Southwest tennis championships which are to be decided at the L.A.T.C. September 20-25.

He ballyhooes this auspicious event in a very disarming manner, first pointing out that California boys have just scored the first clear sweep in history in the junior and boys' divisions in the East.

Then he comes to the point that the expenses of these boys were paid either wholly or in part by the Southern California Tennis Association, and that this money comes from the annual Pacific Southwest championships. His letter about the matter follows:

"Dear Paul: How about a few kind words for the California boys who scored the first clear sweep in history in the junior and boys' tennis divisions. Here are the 1935 national champions:

"Junior singles champion—Keith Gledhill, Santa Barbara, and Ellsworth Vines, Pasadena.

"Boys' singles champion—Jay Cohn, Santa Monica.

"Boys' doubles champions—Jay Cohn, Santa Monica, and Charles Hunt, San Francisco.

The expenses of these boys were paid, either in part or entirely, by the Southern California Tennis Association, and this money comes from the annual Pacific Southwest tennis championship tournament, which will be held at the L.A.T.C. September 20-25. Thus the boys and girls will not only get an eye for Betty Nuthall, Helen Jacobs, Edith Cross, Bunny Austin, Mrs. Watson, Tilden, Hunter, Allison, Van Ryn and company for their money but will also be helping develop future Vines, Gledhills, Cohns, etc., for Southern California.

"Incidentally, lest the folks think we're partial, we have two fine junior girl players sent East by the association this year, Carolyn Babcock and Helen Marlowe, and while it is a bit too much to expect them to knock off Sarah Palfrey on their first trip East, they have another year coming in the junior division.

"Thanks, "BILL HENRY."

THE BOBBY JONES CASE

THERE'S no use trying to head off the golf buse from now until the national amateur championship is decided at Del Monte, September 2-5.

Bobby Jones arrives here tomorrow and the niblick talk in the air at the Biltmore will remind one of the surcharged excitement that always exists there on the eve of some big football battle.

The mere fact that Bobby is not to defend his title in this city does not alter the case at all. He's the king of all golfers, and his arrival will start the dopesters off at full steam.

Jones has two engagements here—the earlier banquet at the Biltmore Friday night and the match foursome at the Los Angeles Country Club Saturday afternoon.

There are a million other engagements open for his acceptance, but after fulfilling these two Mr. Jones is going to his himself to Del Monte for a week of practice.

The experts are wondering who there is who might defeat Mr. Jones this year, and their wonderment is not getting them anywhere. That's how good Mr. Jones is—and can be.

Some of the boys point out that seven years ago a gent named Sweetser beat Mr. Jones in a national amateur and that three years ago a gent named Mr. Van Kim beat him at Biltmore.

They haven't got much else to point out, and have sunk to the state of predicting that anybody who can shoot the reconstructed Pebble Beach course consistently in par—72—might have a chance to beat Mr. Jones.

However, I suspect that if the opposition rises to such heights Mr. Jones will rise still higher. He has that peculiar faculty.

WHO IS HARDEST PUNCHER?

WINDY WINNER says his boy Denny Mahan will knock out that black person from Ohio named Gerfilla Jones when they meet at the Olympic tonight.

But I note from other sources of information that Jones is considered too heavy for Mahan and that the deaf mute is not expected to last five rounds with the victor.

This certainly puts a different aspect on the frame. There seemed to be nothing to the affair but Mahan while Winner was controlling the ballyhoo.

But Mr. Sney Welch brought his black boy into the city, and presto change the situation is reversed.

It now looks like a grand free-for-all between two hard punchers with the possibility that the match will lead to a title encounter with Jackie Fila.

BEAR REGISTRATION STARTS

Grid Athletes Sign for Classes; Weight Increase in Stars Pleases Battery of Coaches

BERKELEY, Aug. 19. (Exclusive)—Registration of returning students was introduced at the University of California today and the varsity coaching staff stood by with smiles as wide as favored athletes returned to take up their respective standards in behalf of alma mater.

Football attracted the biggest percentage of students, and the varsity coaching staff stood by with smiles as wide as favored athletes returned to take up their respective standards in behalf of alma mater.

Registration was held at Ralph Doughty, husky fullback and end and formerly a star with the university's Pacific Coast Conference championship basketball team as a forward.

Yankees Land
Youthful Star

SAN JOSE (Cal.) Aug. 19. (P)—Outdoing half a dozen other baseball scouts in the scramble, William Eustice of the New York Yankees today came to an agreement with Ed Leishman whereby the 21-year-old star shortstop of the San Jose Bees will sign with the Yanks on September 1. He is to report next season.

Leishman, an Oakland youth just out of high school, has played such phenomenal ball with the California State League team this season that representatives of the Philadelphia Athletics, Pittsburgh Pirates, St. Louis Browns and two Coast League clubs, Oakland and Portland, were after his services. The youngster is described as a brilliant prospect.

FORGIONE HOT
AFTER HUDKINS

Vincent May Land Date if He Gets Over Strong Friday

Vincent Forgione has promised to remain in Los Angeles just as long as Ace Hudkins is here, and if he wins from Everett Strong at the Hollywood American Legion stadium Friday night, Forgione will sleep at Hudkins' front door, if necessary, to get a fight.

Strong and maybe it will be by a knockout, as the Italian is now in his best form.

The Philadelphia boy has met everyone there is to meet in the middleweight division around here. He hoped he would get Ace Hudkins and unless he is given a good reason why he isn't going to get a crack at the Wildcat, the Forgione legend is going to go to Los Angeles.

James Woods said he will help.

If the wind-up proves as good a fight as it stacks up on paper, it will be one of the best bouts of the season.

The fighters are evenly matched and Harold Matthews is getting a chance to make a comeback after losing to Speedy Dado a month back.

Matthews, a Filipino, fights Matthews. He is managed by Frank Chisholm, who has handled every big-time Filipino that ever fought in this country.

Speedy Dado will probably be seen at the fight. A little something is being said about a fight between Dado and the Filipino, who has been in the ring for some time.

Matthews is a good fighter and has been in the ring for some time. He is a good fighter and has been in the ring for some time.

NICK LUTZE IN
TIP-TOP SHAPE

Gladiator Well Primed for Bout With Stecher

Former Champion Promised Rather Wild Session

Both Wrestlers Confident of Victory Tomorrow

Nick Lutze is in better condition for his final mat battle with Joe Stecher at the Olympic tomorrow night than he was for his match with Joe Malacvic here two weeks ago. Mat experts, who watched Lutze in his final workout for this match yesterday, declared the young mat star was probably in the best condition of his mat career, and at his peak, as far as wrestling is concerned.

Lutze appeared to be at the top of his ability the night he beat Joe Malacvic here, but during the last few days the local mat idol had shown enough improvement to cause several of the close followers of the mat game here to name him a slight favorite over the 230-pound body builder and three times holder of the world's mat title.

Most of yesterday's workout was given to the perfection of Lutze's new leg-weakening hold—the combination leg jackknife and split. It is the grip which Lutze intends to use to keep Stecher's legs from squeezing him into submission. He also looks for the hold to slow up Stecher to such an extent that he will fall an easy victim to the young mat star's backward and overhead slam grips.

Both Lutze and Stecher are confident of winning. Both intend to use a smashing, aggressive wrestling style tomorrow night in their respective efforts to win. Mat critics look for the fastest and most colorful non-title match seen here this year, with a near capacity house in attendance.

The winner of this bout will meet Champion Gus Sonnenberg here early next month, unless Billy Sandow comes forward with the challenge of Ed (Strangler) Lewis is the winner of this bout. Lewis promoted Promoter Leo Duro's plan to recognize the winner of this match as winner of the tournament and entitled to the title belt, but the protest, which was sent to Sandow, has not been received by the promoter.

Bob Kruse, the newest young mat sensation, will tackle George McCleod, a mat star and veteran in the same class with Dick Daviscourt, in the special event. Ivan Liova, the giant Conquistador, will battle Joe Wingo, a 235-pounder, in the opener of the all-star card.

RAIN POSTPONES BOUT

BOSTON, Aug. 19. (P)—The Jim Maloney-Richard Bert Amella ten-round heavyweight bout scheduled for Braves Field tonight was postponed until tomorrow because of rain.

TILDEN WINNER
IN COURT PLAY

(Continued from Ninth Page)

of foreign seedings, 4-4, 6-4, 6-4, in a first-round match.

Frank Hunter of New Rochelle, N. Y., another member of the Davis team, who has been seeded second, played but one match, defeating the veteran F. C. Baggs of New York, 6-3, 6-4.

Though eighteen players were seeded, ten homebreds and eight foreigners, the one ending that caused a flutter among the spectators was the smashing victory of W. W. Cohen, 27, young Kansas City player, over the erratic R. N. Williams II of Philadelphia.

The younger refused to permit the veteran to crowd the net and forced

**KIDNAPER OF BOYS SOUGHT**

Men Hunt Begun for Abuser of Glendale Lad

Stranger Lures Two Youths to Deserted Cabin

Both Returned to City and Warned to Say Nothing

GLENDAL, Aug. 19.—Police of this city and San Fernando Valley towns are searching for a man who is asserted to have kidnapped Albert Irish, 10 years of age, of 1718 North Cleveland road, and to have criminally mistreated him after taking him to a lonely cabin in the northern section of the valley.

Albert and a playmate, Tom Jamison, 10, were seen by a neighbor playing in front of the Jamison home early this morning when they were accosted by a stranger driving a battered automobile who asked them to go with him and crawl through the window of his home, the key of which he said he had just.

The boys differ in their accounts of the location of the cabin, one saying it was near San Fernando and the other insisting that it was near Chatsworth.

The man took the two lads to the cabin, they assert, where he abused the Irish youth after making them drink wine. In the car the boys said they saw several guns and a deer head, which they appeared to have been recently killed.

The boys were brought back to within two blocks of their homes, where they were put out of the car, and the man then drove off after warning them to say nothing.

City to Provide Water for Golf Course in Park

SANTA ANA, Aug. 19.—The City Council today authorized the City Board to enter into an agreement with the Recreation Development Company to construct and operate a golf course in Balboa Park.

The course is to be located on the site of the old Santa Ana River, and will be approximately 180 acres in size.

NEGRO YOUTH UNGALLANT

He "Says It With Bullets" from Air Rifle as Retort to Criticism from Girl of Same Race

MONROVIA, Aug. 19.—"I shot her and her brother because they said some bad things about me," Abraham Feltus, 15-year-old negro boy, declared to acting chief of Police Bove this morning after the shooting Saturday afternoon of Lester Cadbury, 4, and her brother, Edward, 10, at a home where they were playing on the Huntington school grounds.

The Feltus boy, who was accompanied by the Wilson boy to the playground, shot the little Cadbury girl just as she ran toward him with a BB air gun, and afterward shot her brother in the right knee, according to police records of the boy's confession.

Police learned that the Feltus boy did the shooting and that the Wilson boy was only a witness. Both boys were brought before Bove this morning, who questioned them concerning the cause of the fight between themselves and the Cadbury children.

"Will I just don't like to be called 'bad names,' young Feltus told Bove.

When asked if he did not realize that he was breaking the law shooting within the city limits, the offender replied that he thought the law was for larger guns than a BB gun.

"This is one time that your thoughts got you in bad, and as a penalty I will keep the gun," Chief Bove said to the boy, and furthermore, I want you to appear before Judge John Sturgeon, in this police court, Friday morning at 9 o'clock for sentence.

"I don't know what you all talking about, this sentence business, but we'll be here for the same," were Abraham's parting words as he was escorted out.

The boys were brought back to within two blocks of their homes, where they were put out of the car, and the man then drove off after warning them to say nothing.

The boys were brought back to within two blocks of their homes, where they were put out of the car, and the man then drove off after warning them to say nothing.

CLUB FOR AMATEURS OF CINEMA

San Diego Dilettantes Form Organization to Promote Art in Private Use

SAN DIEGO, Aug. 19.—Announcement of the organization of the Amateur Motion Picture Club of San Diego, whose aim will be to promote the art of cinematography in all its branches and to facilitate the making of amateur films, was made today at the club's first meeting.

The club is planned to hold periodical exhibitions of films of a scientific nature, either in scenario, portrait or scenic form; to give instruction in the making of amateur films; to demonstrate lighting methods, and to have lectures by prominent persons on the future development and services rendered by amateur motion pictures.

John J. Lusk, who has been arranged with professionals from Hollywood, will address members of the club on various subjects, such as directing, scenario writing, technical lighting, trick photography and laboratory work.

LIQUOR STOCKS TAKEN IN RAID

San Diego Police Dry Squad Makes Costly Haul

Total of 4500 Quarts Seized by Officers

Five Arrests Made in Store With Six Phones

SAN DIEGO, Aug. 19.—Raiding a storeroom, which had been equipped with six telephones, at 888 Seventh street, last night, the police dry squad, headed by Lieut. George Churchman, seized 4500 quart bottles of whiskey, gin and other liquors and arrested five persons. The supply of illicit beverages was valued at approximately \$7,000.

Names given by those arrested were Charles Stone, Jack Schless, George Durkin, Joe Edwards and Pete Nielsen. They were charged with violation of the Wright Act, booked at the City Jail and later released on \$1000 bail.

Arrest of Stone and Schless was effected when they started to leave the storeroom with an auto loaded with liquor, according to Lieut. Churchman, Edwards and Nielsen were inside the building while Durkin was arrested outside on the sidewalk with a bottle on him, having just left the room, Churchman stated.

Request for a jury trial for the defendants was made by their attorney when the case came up in Court today. Date for trial will be set tomorrow at 10 a.m., when they appear to enter plea.

The case was charged only with possession when booked last night, was released on only \$100 bail while the others were assigned to the County Jail.

The case was charged only with possession when booked last night, was released on only \$100 bail while the others were assigned to the County Jail.

HIGH-BRED ENTRIES FOR FAIR

Blue-Blooded Stock from Most Noted Farms in Country to Be Shown at Pomona in September

POMONA, Aug. 19.—Along with its other distinctions Los Angeles County Fair, to be held here September 17 to 23, will present the greatest collection of blue-blooded live stock ever seen in the Southland, according to a statement from Manager Jack Afterbaugh following a conference with the heads of the various departments. Many of the most noted farms in the country will be represented. In fact, the wide range of territory covered is one of the notable features. A large force of carpenters is now at work rushing to completion additional display pens to care for the stock of entries.

Hogs have been entered by such well-known breeders as the Lillard Stock Farms at Arlington, Tex.; Chest Brooms farms in Wisconsin; Maxwood Duros farm at Baldwin Park, Schenckensberg ranch at Orange and many others.

The dairy cattle division will be headed by such noted herds as the Carnation Farm Holsteins being shown in California for the first time, D. E. Ryan and Jerry, Blackwood ranch, Quermans and many others. There will also be a wonderful showing of beef cattle.

Sheep have been entered from every section on the Pacific slope, according to L. E. Shess, superintendent, and the list includes all of the larger and better-known breeders.

Notable among the entries this year are the heavy draft horses, including Percherons, Belgians, and others. Entries are flooding in daily and the big problem before the fair officials now is to find room for the immense number of entries. Poultry, pique and rabbit shows will also be the largest ever held.

CLAREMONT, Aug. 19.—The annual pilgrimage of students returning to this city will begin within a few days. Registrations in another month. Registrations of students at Scripps College for Women will take place on Wednesday, September 12, next. Convocation will be held in the new Janet Jacks Ball Hall on Friday, September 20.

Freshman week opens at Pomona College Monday, September 16, and continues for three days. Opening at 8 a.m. Monday, an assembly will be held for freshmen. The remaining days will be devoted to conferences, social gatherings, registration, physical examinations and psychological examinations.

Registration for sophomores, juniors and seniors starts on September 18, continuing through Thursday of that week. Convocation in Bridges Hall at 8:30 a.m. September 30, will be followed by the beginning of regular classes.

Pomona College will open the new term with its new El El Clark dormitory for men in use. A full freshman class is expected to enroll in a large list of applicants, numbering several hundred. Scripps College will open the year with a new class of freshmen, and a new batch of students and administrative staff.

MOUNTAIN

AUGUST 20, 1929.—[PART II.] 19

[illegible]

EQUITY ACTORS SEEK WORK

Rush Begins to Get on Books of Casting
Gillmore Prepares to Depart

Staunch Equity members who declined roles during the actors' Equity association, which was brought to a close at the end of Saturday night, rushed to the Hollywood studios yesterday to get on casting directors to replace their names on the casting lists.

At the same time Frank Gillmore, president, and Paul N. Turner, attorney for Equity, were clearing their desks preparatory to their departure tomorrow morning for the

**SCHOOLS TO
DO STR**

Stone Equity office in New York, Gillmore had no statement to make yesterday, but indicated one will be issued prior to his departure.

Producers remained silent yesterday on the termination of the attempt to place "Equity shop" in the industry which got under way on June 4, last, which was the deadline placed by Gillmore against the acceptance of anything but so-called Equity contracts. This order was suspended Saturday night by the Equity president.

Yesterday, according to Fred Desig, chairman of the casting directors' association, scores of Equity

men who stood by the order of Gilmore up until the time of his suspension, opposed to the various other strikers requesting their names be restored to the books and asking for employment. Daig said he was not in a position to know as yet whether the Equity members were given roles.

The tenseness which has marked the strike was gone yesterday and the men started the new week under the return to conditions which prevailed prior to the arrival of Gilmore and his announcement of "Equity shop."

It is because this act bars the best of men from the union that its usual practice of soliciting men in full is so much more effective than the suggestion that it is a

(ative) — Statements credited to Frank Ollimore, president of the Equity's Equity Association, blaming the Motion Picture Producers and Distributors of America for the "seizure" of Equity's unionization efforts in Hollywood, were characterized by Miss Barrymore tonight as pathetic.

"I was rather surprised to read in the papers," she said, "that Mr. Ollimore blames me for his failure to unionize the motion-picture screen. Apparently, he has decided to make the blame for his failure and his lack of success rest on me. I am glad he has picked on me. Equity is not disrupted, but he has failed abominably, I believe, in his efforts to unionize the screen. Equity has been here since 1919 and Equity knows

During the night in Hollywood, the Barrymore criticized the National League of Equity for advocating a position which was not a solution to the Hollywood problem.

Miss Barrymore tonight set at rest rumors that she had been named as first vice-president of Equity. Not only did she deny this, but declared she had "no intention of resigning."

**TUSTIN REVEALS
SOLID GROWTH**

TUSTIN, Aug. 18.—Situated three miles south of Santa Ana in the heart of the richest and most fertile section of the San Gabriel valley, the city of Tustin has been making

the City of Austin offers unexcelled recreational facilities. A desirable year-round climatic conditions, a fine social and religious life. The community has fine tree-shaded streets which add much to the beauty of the spot. Only a few "pours" drive the motorists to the mountains. The residents can enjoy the pleasures offered by the mountains or is surt with little effort. Growing from a struggling farming community to a community of considerable size, Austin has been making a steady progress each year. Two fine elementary schools and a splendid high school are for the education of the youth of the city.

community. The elementary school district which serves the community has an assessed valuation of \$8,758,858. The public school district of the Union High School District carries an assessed valuation of \$18,600,860. The assessed valuation of the city was reported at \$2,950.

PORTERVILLE DRAWS STUDENTS FROM EAST

PORTERVILLE, Aug. 18.—Porterville Junior College will apparently draw students from points east of the Mississippi River. Principals of the University of Oregon, the University of California and the University of Washington are expected to visit the college campus at Porterville, Calif., during the summer of 1935.

number of applications from prospective students east of the Mississippi for both the local junior college and the high school.

"To give everybody who asks in this institution one takes it away from the deserving one,"—(John D. Rockefeller).

MISS TRUCK JURY OF TWO

cross the road directly in Gavin's path. She stopped in time to save herself.

Don sedan was driven by Charles Thurston of 8231 Louise avenue, in Nuys. The other one was driven by W. E. Hennessey of 10000 Ravens avenue, Thurston and daughter Marguerite were cut on the head by flying glass. They were arrested at the Dickey & Case Emergency Hospital.

Four were hurt when another automobile got out of control of the river and after climbing the curb crashed into a tree at Hillhurst and Pinky. The last night of the drive was driven by B. Shockley, 1412 1/2 Gorton and was owned by Albert Genta, who occupied a rear seat.

With Genta in the rear seat was Margaret Beday, 1319 North

son avenue and with the driver
a Miss Lela Kuch, also of 1412
E. Gorton.

According to Shockley the door of
the front compartment next to Miss
Kuch suddenly flew open and she
was on the point of falling out
when he leaped to the wheel and made
grab for her. Before he could
seize the wheel again the car had
slipped over the curb and hit the
pavement.

Both girls were rendered uncon-
scious and were taken to the
Rocky and was hospital. The men
were treated for minor bruises.

REMEMBER THIS
It takes a strong man to
hold his tongue and temper
at the same time.
